What is Dodge?

Dodge, a family-owned business since 1893, has three family members currently working full-time—Mike, Debbie, and Kristie Dodge, and Keith Dodge working part-time as editor of the *The Dodge Magazine*. We're the largest supplier and manufacturer of embalming chemicals and cosmetics in the U.S. and the world, and sell just about anything you could possibly need for embalming. We're also the source for Dodge Handcrafted Urns and products by Doug Manning. But, we're more...

DODGE RESEARCH

Our research is never ending. We want to create better products for you and improve the ones we have. Dodge has had the only significant breakthroughs in our field: Synergism, Plasdoform, and Dynachrome, to name just a few. And, our quality is second to none. Every batch of chemical is thoroughly checked and rechecked. We employ three full-time chemists and keep them very, very busy!

DODGE REPRESENTATIVES

While many companies are turning to direct mail and telephone solicitation, the Dodge representative comes to you. Each representative is knowledgeable in the purpose and use of our products. If you are experiencing a problem, your Dodge representative will find solutions that have been proven in the field time and again. Dodge representatives understand you and the value of the funeral profession. They strive to support their customers by offering great service and supplying the best information available. Your Dodge representative – a resource – a problem solver – a friend.

TECHNICAL ASSISTANCE PHONE LINES

We employ licensed and experienced embalmers to answer our phones and answer your embalming questions. Whether it's about a case you're soon to receive or one you're working on currently, we can answer your questions now. As far as we know, we're the only company offering this invaluable service. Available Monday – Friday, 8 am – 6 pm. EST.

DODGECO.COM – OUR WEBSITE

Visit us at www.dodgeco.com, your resource for Pocket Journals, the Remembrance Urn line, Signature Line, and the Dodge Product Catalog. Have you been looking for an article from a past issue of the Dodge Magazine? Or maybe you need an MSDS for your files. Our website can give you the answers you need.

DODGE SERVICE

With four fully stocked locations, we give the best service in the entire field of funeral supply. And we ship over 90% of orders on the same day they're received. We carry the inventory, so you don't have to.

DODGE INSTITUTE SEMINARS

As we write this in early 2008, change is in the works. We're adding two 2-day technical seminars, to complement our full week Dodge Sunshine Seminar. You can find information about our programs at www.dodgeco.com, or call us and we'll be glad to send it. Our programs feature speakers new to the field as well as regulars such as Earl Grollman, Doug Manning, Jack Adams, Tim Collison, and Todd Van Beck. Join us for one of these programs and see why we have so many repeat attendees.

THE DODGE MAGAZINE

Our readers often tell us that they enjoy *The Dodge Magazine* more than any other funeral service journal and that we provide the most useful embalming information available. Our regular contributors include Jack Adams, Tim & Kim Collison, Dennis Daulton, and Jerome Burke. The magazine is provided at no charge, four times a year, to over 19,000 funeral professionals all over the world.

When placing a phone, fax or e-mail order

For the most efficient ordering process we suggest the following tips:

1. Please write a list of what you want.

Even if you plan to call us, this will save you time and insure that you get everything you need.

2. On your list, write down:

- a) each item's 6 digit catalog number,
- b) the quantity you want, and
- c) the description. (This is important because we have so many similar products). If you don't know the catalog number, just give us a good description.

3. Please give us your account number.

You can find it on any Dodge invoice and write it here for future reference:

4. If faxing:

The firm name, address, telephone number, and the name of the person placing the order.

5. Non-stock items take longer.

If an item has a catalog number beginning with "0", it isn't in stock. We will be special-ordering it for you from the manufacturer. It will take 2-3 weeks to arrive (or longer, in the case of a few manufacturers).

PHONE: 800-443-6343
617-661-0500

FAX: 800-443-4034
617-661-1428

Note:
Some items and packaging will vary from descriptions in this catalog if purchased outside U.S.A.

Please compare the number of boxes received with the number of boxes shipped before signing for delivery. Note the discrepancy on the driver's papers and call Dodge.

Return policy and procedure

We realize that every now and then, you may place an order for a particular item and when it arrives, it is not what you wanted or has been damaged in shipping. We want to be as helpful as possible when this happens. In order to expedite the return process, please call Customer Service for return authorization so your account can be noted and problems can be alleviated.

Visual Damage – Check the outside of the shipping boxes before signing for them. If there is damage to a box, refuse the order and have the delivery company return the order. Please call Dodge Customer Service to arrange for a replacement order. If you do keep the order, please keep the box as most shippers will need to see the packaging for claim purposes.

Concealed Damage – If there is no visible damage to the box, but when you open it, the item is damaged, contact Dodge Customer Service immediately. We can not accept concealed damage claims after 7 days from your signed delivery. We will contact the delivery company and start a claim process to determine when and how the damages occurred. Once determined, a call tag will be sent to return to the item and a replacement will be shipped. Please remember that if your claim is made after 7 days from delivery, our shipping agents may refuse any responsibility and a credit may not be extended. Please keep the box as most shippers will need to see the packaging for claim purposes.

Missing Items – Occasionally an item that you ordered may not be in the box. Please contact Dodge Customer Service within 7 days of your signed delivery. In this situation, we will ship a replacement to you with no added shipping costs.

Items Being Returned –

- Please call Customer Service to work out arrangements for all returns. Products must be returned in good, unused condition, preferably in the original packaging.
- A Dodge Return Call Tag will be issued if an item is defective or damaged, or if we shipped it in error. We will gladly exchange or issue a full refund/credit including shipping costs for that item when returned within 21 days of your signed delivery.
- A Dodge Return Call Tag will be issued for Dodge products you wish to return that are not defective or damaged and returned **before** 30 days have passed since receipt. You will receive a refund/credit for merchandise minus shipping charges. If Dodge products that are not defective or damaged are returned **after** 30 days of receipt, you will receive a refund/credit for the merchandise minus a 10% restocking fee per item and shipping charges.
- For items from outside manufacturers, PLEASE notify Dodge within 7 days of receipt of the item to arrange for Return Call Tags (item will be returned to manufacturer pending approval from that manufacturer). Credit will not be issued until the item is received by the manufacturer. For returns other than for defects, damages, or shipping errors, restocking fees (which range from 10-25%) and shipping fees will be deducted from your refund/credit.

Short Shipments – Before signing for any delivery, please make sure that you count the numbers of boxes/cartons being delivered. If there is a discrepancy, indicate it on the delivery driver's copy and initial before signing. This will allow Dodge to make a claim for the missing items. If this notation is not made, your replacement items will be sent and the shipping charges will be added to your account.

Information on Dodge Labels

Occasionally we are asked, "Why doesn't Dodge print the directions for use or the index on the labels of their products?" Both parts of this question deserve answers.

DIRECTIONS

With regard to directions for use, the answer is simple. First of all, as skilled embalmers, each of you has developed your own skills and techniques to assess the requirements needed for the case at hand. Due to the many variables in every situation, the information necessary for the use of the product could not fit on the label. Secondly, we make available at no charge well-written technical manuals and product fact sheets on each of our products. Directions for use can be had for the asking.

INDEXES

There is no secret about the indexes of our chemicals either. In fact, some of our chemicals do show the index on the label. We are hesitant to perpetuate the over-emphasis on the importance of index. So rather than simply giving out this information, we also like to go into a bit of explanation.

These indexes are not nearly as important as the general emphasis on them would lead one to believe. Fifty years ago, index was an excellent indicator of what one might expect from a chemical. Many changes have been made in embalming chemicals since that time, however. Various other chemicals are now used to control formaldehyde, to increase its distribution, to speed its action, to slow its action, and so on.

As an illustration of the difference in the action of formaldehyde in various formulas, one might consider two of our older arterials – Neo Pyramid and Pyramid. They are radically different from one another in action, yet have exactly the same index. (Both are 22.5.) Neo is medium in firming speed and in firming action, while Pyramid is very fast acting and will produce a very firm body. These major differences are attributable to chemicals other than formaldehyde.

Thus, while formaldehyde is the principal preserving chemical used in embalming fluids today, and while it is the best preservative for this use, the amount of it in a particular formula does not really give one a true and complete idea of what to expect from the chemical. With that note of caution, here are the indexes of our principal injection chemicals.

CHEMICAL INDEXES

Arterials:

Chromatechs—all colors	21.5
Humeglo	24
Introfiant	30
Jaundofiand Basic	19.5
Metasyn Normal	20
Metasyn Accelerated	24
Metasyn Firming	30
Metasyn 35	35
Permaglo regular	24
<i>Permaglo is also available in 20, 30, and 35 indexes.</i>	
Plasdo 25	25
Plasdropake	18

Cavities:

DeCeCo	22.5
Dri Cav	21
Freedom Cav	0
Metafix	20.5
Mylofix	10.5
PermaCav 50	50
Permafix	22.5
Spectrum	5
SynCav	5

Autopsy related products:

SynGel LV	10
SynGel HV	10

PLEASE keep in mind that index doesn't tell the whole story. Products vary due to ingredients other than formaldehyde and how they react in the body can be very different. Consider Metasyn Accelerated and Permaglo - they are radically different from one another in action yet they have exactly the same index.

SUGGESTED DILUTIONS

Before listing the volume of solution recommended per body, we should stress that all embalming guidelines are subject to the discretion of the embalmer. These recommendations are approximate; the embalmer must use his/her judgment based upon the situation at hand.

We strongly recommend that you prepare and inject no more than 1 gallon at a time. This allows you to increase or reduce the concentration of chemicals you are using, or change chemicals altogether. After injecting the first gallon, observe the body carefully. If you're getting too little firming, the concentration of arterial should be increased. Too much firming could call for less arterial, an arterial of lower index, or an additional amount of coinjection chemical.

DILUTIONS TABLE

For all Dodge arterial, coinjection, and water corrective chemicals

Case Type	Standard Solution	Superior Solution	Waterless
Normal Cases Also infants, emaciated cases, or individuals with thin, delicate skin.	8 oz. Arterial 8 oz. Metaflow 8 oz. Rectifiant + water to make 1 gal.	1 btl. Arterial 1 btl. Metaflow 1 btl. Rectifiant + water to make 1 gal.	1 btl. Arterial 1 btl. Restorative 2-3 btl. Metaflow 2-3 btl. Rectifiant NO water
Moderately Difficult Some chemotherapy, autopsied, jaundiced, some putrefaction.	12 oz. Arterial 12 oz. Metaflow 12 oz. Rectifiant + water to make 1 gal.	1½ btl. Arterial 1½ btl. Metaflow 1½ btl. Rectifiant + water to make 1 gal.	2 btl. Arterial 1 btl. Restorative 2½ btl. Metaflow 2½ btl. Rectifiant NO water
Very Difficult Advanced putrefaction, gas, gangrene, skin slip, heavy chemotherapy.	16 oz. Arterial 16 oz. Metaflow 16 oz. Rectifiant + water to make 1 gal.	2 btl. Arterial 2 btl. Metaflow 2 btl. Rectifiant + water to make 1 gal.	3 btl. Arterial 1 btl. Restorative 2-3 btl. Metaflow 2-3 btl. Rectifiant NO water

Arterial Chemicals

Chromatech (Plasdoform Based)

**a. CHROMATECH ORIGINAL
PERFORMANCE HIGHLIGHTS:**

- Provides medium firming.
- With Plasdoform – Dodge’s patented embalming breakthrough.
- Contains its own humectant. Soluble, not animal-based.
- With the exclusive Chromatech dye system. Not available in any other arterial.

ORDERING DATA:

- a. Chromatech**
 Catalog No.: **109001**
 Index: 21.5
 Unit Size: 16 Oz. Btl.
 Packing: 24 Btl. Case

**b. CHROMATECH PINK
PERFORMANCE HIGHLIGHTS:**

- Provides medium firming.
- With Plasdoform – Dodge’s patented embalming breakthrough.
- Contains its own humectant. Soluble, not animal-based.
- With the exclusive Chromatech pink dye system. Not available in any other arterial.

ORDERING DATA:

- b. Chromatech Pink**
 Catalog No.: **109016**
 Index: 21.5
 Unit Size: 16 Oz. Btl.
 Packing: 24 Btl. Case

**c. CHROMATECH TAN
PERFORMANCE HIGHLIGHTS:**

- Provides medium firming.
- With Plasdoform – Dodge’s patented embalming breakthrough.
- Contains its own humectant. Soluble, not animal-based.
- With the exclusive Chromatech tan dye system. Not available in any other arterial.

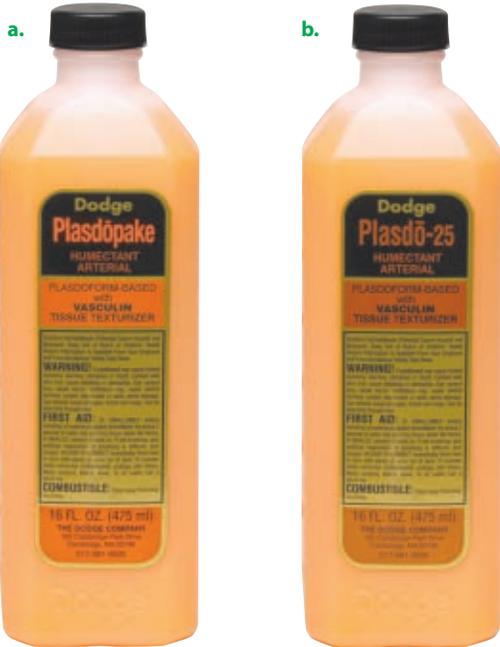

ORDERING DATA:

 Catalog No.: **109028**
 Index: 21.5
 Unit Size: 16 Oz. Btl.
 Packing: 24 Btl. Case

Arterial Chemicals

Plasdopake / Plasdo-25

Plasdopake is identifiable as a humectant arterial formula by its opaque, flesh-toned characteristics. Although seemingly viscous in appearance, it is actually just as free flowing as our non-humectant arterials. Plasdopake is a non-fatty, non-emulsified chemical compound with Dodge Vasculin substituted as the humectant factor.

a. PLASDOPAKE
b. PLASDO-25
PERFORMANCE HIGHLIGHTS:

- Monitored firming. Molecular screening controls rate of firming acceleration. Releases formaldehyde content as needed.
 - Clot dispersal. Plasdoform base peptizes and diffuses clots, clumped cells, nutrient gels.
 - Neutralizes antibiotic drug effects.
 - Rehydrates tissue cells. Penetrates cell membrane. Moisturizes cell proteins. Restores lifelike plasticity.
 - Disperses death pallor. Imparts natural translucence to the skin. Disperses dull putty grey color.
- Water soluble formula. Contains no emulsified animal fats. Won't settle out of suspension and block circulation.
 - Disinfects as it preserves. Powerfully active against pathogens. Stabilizes proteins. Halts decomposition.
 - Polarizes cell proteins. Binds tinctorial undertones to the tissues by polar attraction. Imparts color vibrancy.
 - Operationally simple. Permits fast, trouble-free injection. No complex procedures.

ORDERING DATA:

Catalog No.: **107020**
Index: 25
Unit Size: 16 Oz. Btl.
Packing: 24 Btl. Case

Introfiant

Introfiant, identifiable by its distinctive deep-toned Dynachrome coloring, is an ultra-potent arterial embalming medium intensified by the addition of powerful Dodge "introfiers" for penetrating and preserving circulation-resistant bodies. Although initially formulated to cope with "problem-case" conditions, this arterial has found widespread professional favor as a general-purpose embalming medium because its excess strength relieves the embalmer of all doubts concerning the efficacy of the arterial injection – regardless of vascular and tissue conditions. Many leading mortuary establishments consider Introfiant an invaluable time-saver and specify its use on extreme and normal cases alike.

INTROFIANT
PERFORMANCE HIGHLIGHTS:

- Preserves bodies treated more than 24 hours after death occurs.
- Penetrates refrigerated and frozen bodies, putrefied tissue.
- Bonds lifelike, non-fading blood-glow color to tissue proteins.
- Simplifies treatment of difficult senile and "institutional" cases.
- Embalms bodies with sub-normal albumen and protein content.
- Halts putrefaction. Treats gangrene and cancer circulation-resistant tissue.
- Bleaches jaundice discolorations, blemishes. Will not "burn" or "leatherize" the skin.

ORDERING DATA:
Introfiant
(with Dynachrome)

Catalog No.: **105023**
Index: 30
Unit Size: 16 Oz. Btl.
Packing: 24 Btl. Case

Arterial Chemicals

Jaundofiant

JAUNDOFIANT BASIC: This element of the two-part Jaundofiant System contains the basic chemical constituents for protein fixation and jaundice-stain reduction.

JAUNDOFIANT CONTROL: This element of the dual Jaundofiant System contains the chemical catalyst which activates and intensifies the stain-reducing components of the Basic arterial. The Control unit must be intermixed with Basic for maximum jaundice embalming effectiveness. It is bottled separately to maintain the dual components at full chemical capacity.

a.

For the best results, these 2 products must be used together, ounce for ounce.

a. JAUNDOFIANT BASIC
b. JAUNDOFIANT CONTROL
PERFORMANCE HIGHLIGHTS:

- Reduces yellow staining in most cases – achieves total clearance in many jaundice instances.
- Bleaches out bile pigments only. Will not alter normal skin pigmentation.
- Requires no special techniques beyond ordinary preembalming treatments.
- Tinctorial content may be intensified by adding Inr-Tone as required.

ORDERING DATA:

a. Jaundofiant Basic
 Catalog No.: **106013**
 Index: 19.5
 Unit Size: 16 Oz. Btl.
 Packing: 24 Btl. Case

ORDERING DATA:

b. Jaundofiant Control
 Catalog No. **106021**
 Index: 0
 Unit Size: 16 Oz. Btl.
 Packing: 24 Btl. Case

b.

Humeglo

Humeglo combines the humectant properties of Restorative and the excellent tinting characteristics of Dodge's popular Permagro arterial – at a price the budget-minded will appreciate. Creates a realistic simulation of natural tissue color while adding moisture to tissues which are under-hydrated. Rely on Humeglo to provide stable, natural looking tissues every time.

ORDERING DATA:

Humeglo
 Catalog No.: **104001**
 Index: 24
 Unit Size: 16 Oz. Btl.
 Packing: 24 Btl. Case

HUMEGLO PERFORMANCE HIGHLIGHTS:

- Dependable firming in the medium to rigid range.
- Excellent textural and cosmetic effects.
- Uniform diffusion with spot-resistant tinctorial action.
- Controls dehydration and rebuilds tissues physically.
- Restores cellular hydration and prevents tissue shrinkage.
- Restores drawn features.
- Excellent on frozen or refrigerated cases.

Arterial Chemicals

Metasyn

Metasyn offers the embalmer an all-purpose medium of remarkable flexibility and precise operational control. This formula gives the progressive practitioner every desirable feature of a premium performance arterial chemical – and more! Plasdoform embalming takes the doubts and guesswork out of injectional procedures – insures exceptional levels of embalming results on all types of cases. A popular choice for effortless excellence.

ORDERING DATA:

d. Metasyn 35

Catalog No.: **121011**
Index: 35
Unit Size: 16 Oz. Btl.
Packing: 24 Btl. Case

PERFORMANCE HIGHLIGHTS:

- All-purpose arterial with monitored firming rate.
- Gives working solutions the molecular weight of human blood.
- Produces exceptional cosmetic refinements.
- Leaves tissue pliant with fine-textured skin tone.
- Antimetabolite action dispels jaundice and postmortem discolorations.
- Preserves completely with gentle, progressive firming and natural tissue plasticity.
- Peptizing constituents insure free circulation and complete protein fixation.
- Contains lab-measured, self-adjusting tincturials.

Arterial Chemicals

Permaglo

A very realistic simulation of natural tissue color can be produced with Dodge Permaglo. When it is important to create an illusion of vitality, the embalmer can rely on this classic arterial chemical to impart a stable, natural-looking glow to lifeless tissue.

a.

PERFORMANCE HIGHLIGHTS:

- Yields fast firming action in medium to rigid degree with fine cosmetic results.
- Heightens tissue color to impart a well diffused and natural simulation of lifelike repose.
- Realistic simulation of lifelike glow – as much as can be obtained by vascular injection techniques.
- Uniform diffusion – with deep, penetrating, spot resistant tinctorial action.
- Dependable firming in medium to rigid range with excellent textural and cosmetic refinements.
- LS & SS formulations have added dyes.

Coinjection Chemicals

Metaflow

Metaflow is a Plasdoform-based preinjection and coinjection chemical specifically formulated to intensify embalming chemical receptiveness within the vascular system. Used in routine pre- and coinjection procedures, Metaflow speeds up injectional operations, saves prep room time and contributes importantly to superior, more predictable embalming results.

ORDERING DATA:

Metaflow

Plasdoform Pre / Coinjection Chemical

Catalog No.: **340067**

Unit Size: 16 Oz. Btl.

Packing: 24 Btl. Case

METAFLOW PERFORMANCE HIGHLIGHTS:

- Restores permeability to cell membranes. Replaces moisture balance. Releases antibiotic deposits from cells.
- Speeds flow by lubricating blood cell surfaces. Accelerates drainage.
- Detoxifies residues of addictive drugs and chemotherapeutic agents which impair preservation.
- Reduces viscosity of coagulated blood. Disperses vascular obstacles.
- Inhibits precipitation of blood in aged cases. Reduces agglutination. Dissolves fatty gel deposits.
- Prevents cell clumping and clot formation.
- Restores emaciated cases by creating natural moisture balance in tissue cells.
- Dispels jaundice and other post-mortem discolorations.

Permaflow V-2

Permaflow V-2 is a light amber tinted fluid specifically formulated to intensify the preservative and diffusing action of the basic arterial chemical used. It accomplishes this function by conditioning the vascular system for greater receptiveness and unimpeded circulation of the preservative chemicals via pre- and coinjection procedures.

PERMAFLOW V-2

PERFORMANCE HIGHLIGHTS:

- Used in standard injectional procedure via pre- and co-injection on all types of cases.

ORDERING DATA:

Permaflow V-2

Catalog No.: **350017**

Unit Size: 16 Oz. Btl.

Packing: 24 Btl. Case

Coinjection Chemicals

Perma-Co

PERMA-CO PERFORMANCE HIGHLIGHTS:

- Pre- and coinjection chemical of choice for those embalmers who appreciate the benefits of pre- and coinjection formulations, but want such a product at the most economical cost possible.
- Contains ingredients to lower surface tension and aid in penetration.
- Includes a clot preventative agent, and a sequesterant, which will keep insoluble calcium salts from precipitating.
- Contains disinfectant ingredients, and a humectant.
- Has a basic pH to ensure the proper alkaline environment for most effective use of the arterial chemical.

ORDERING DATA:

Perma-Co

Catalog No: **350020**

Unit Size: 16 Oz. Btl.

Packing: 24 Btl. Case

Purifying chemicals, dissolved minerals, and gases which are found naturally present in water supply sources today are taking a heavy toll in embalming chemical and disinfectant performance. You can keep such interference down to safe levels by treating your tap water with Rectifiant when diluting injection chemicals to working strengths.

ORDERING DATA:

Rectifiant

Catalog No: **320010**

Unit Size: 16 Oz. Btl.

Packing: 24 Btl. Case

RECTIFIANT PERFORMANCE HIGHLIGHTS:

- Corrects, conditions tap water for embalming.
- Neutralizes water-purifying chemicals, minerals, gases.
- Counteracts jaundice-activating effects of chemotherapeutics.
- Penetrates bacterial "calcium-barrier" defenses.
- Stabilizes pH values, prevents chemical precipitation.
- Steps up working power of arterials.
- Screens out ionic adulterants bypassed by mechanical water softening equipment.
- Helps clear post-mortem and jaundice discolorations.
- Defibrinates clotted blood.
- Keeps fluid lines and tanks clean.
- Softens, helps remove vascular blocks.

Rectifiant

Coinjection Chemicals

Restorative

RESTORATIVE PERFORMANCE HIGHLIGHTS:

- Controls dehydration.
- Halts syneresis of protein gels.
- Rebuilds tissue physically.
- Restores cellular hydration.
- Prevents tissue shrinkage.
- Moisturizes from within.
- Velvetizes skin texture.
- Restores natural contours.
- Stimulates drainage.
- Intensifies arterial diffusion.
- Restores drawn features.
- Enhances illusion of repose.
- Treats frozen, refrigerated cases.

Dodge Restorative is carefully formulated to carry moisture and humectant conditioners directly into the dried protein substance of dehydrated tissue cells. The action is purely biophysical.

ORDERING DATA:

Restorative

Catalog No.: **360016**

Unit Size: 16 Oz. Btl.

Packing: 24 Btl. Case

Edemaco

Embalmers are seeing an increase in bodies swollen from edema with consistently increasing frequency due to new medications and hospital techniques. After years of rigorous testing, our laboratories have developed the Edemaco formula which achieves startling results in its ability to reduce swollen tissues with a unique combination of moisture controlling components.

ORDERING DATA:

Edemaco Bottle

Catalog No.: **506001**

Unit Size: 16 Oz. Btl.

Packing: Single Btl.

Edemaco Case

Catalog No.: **506006**

Unit Size: 16 Oz. Btl.

Packing: 6 Btl. Case

EDEMACO PERFORMANCE HIGHLIGHTS:

- Ultra-effective in reducing dropsical conditions.
- Reduces swollen tissues without extra procedures.
- Thoroughly field-tested.
- Potent in small quantities.
- Creates temporary additional firmness.

Arterial Dyes

Icterine

Icterine is our most modern, concentrated arterial dye. It is a super-concentrated, non-dehydrating tinctorial additive specifically formulated to give the embalmer selective and precise control over tissue coloring in an infinite range of ethnic tissue tints.

ICTERINE PERFORMANCE HIGHLIGHTS:

- **REGULAR SHADE:** Red tones. Recommended for infants, light complexions.
- **SUNTAN:** For dark complexions.
- **PEACH:** Reddish-orange tone. As popular as Regular Icterine. Also intended for elderly cases, naturally yellowish complexions and Asian types.
- **TAN:** For somewhat weathered complexions. As the name suggests, similar to Suntan, but has only the brown tones without the reddish coloration.
- Average tinting concentration usually requires one-half to one full ounce of Icterine per half-gallon solution.

ORDERING DATA:

Icterine Regular

Catalog No.: **552026**
Unit Size: 16 Oz. Btl.
Catalog No.: **552034**
Unit Size: One Gal.

Icterine Suntan

Catalog No.: **552117**

Catalog No.: **525048**
Unit Size: 16 Oz. Btl.

Inr-Tone #5 Darker

Catalog No.: **525055**
Unit Size: 16 Oz. Btl.

INR-TONE

PERFORMANCE HIGHLIGHTS:

- Made in five complexion-coordinated shades.
- Gives the embalmer an exceptionally wide range of color selection.
- Unsurpassed for duplicating the natural chromatic values of various ethnic types.
- Formulated to yield fast, uniform diffusion with minimal risk of spotting.
- Chemically compatible with all standard arterial chemicals.
- Widely used to supplement color intensity in Jaundofiant solutions.

NOTE: *There are no computer numbers for multiple-bottle cases of Icterine or Inr-Tone. (Of course, there are quantity price breaks; see price list.) Orders will be billed per each bottle but can be packaged in any number you specify.*

Inr-Tone

Cavity Chemicals

Spectrum, Dri Cav, Freedom Cav

Spectrum covers the spectrum of features you need in a cavity chemical...gives you all the comfort of SynCav and firming which far surpasses that of any other low fuming chemical ever sold. Spectrum combines the best features of the world's top selling cavity chemical, Dri Cav, with those of the world's top selling low-fuming cavity, SynCav. Contains no more formaldehyde than SynCav (5%) yet it delivers real 20%-plus firming action.

a. SPECTRUM

PERFORMANCE HIGHLIGHTS:

- Great for allergic or fume-sensitive embalmers.
- Fortified with Plasdoform and synergism.
- Contains Dri Cav's unique drying components.
- First and only truly firming "fumeless" cavity.
- No worries about gas build-up.
- Kills viruses, bacteria, and fungi.
- Special deodorizing properties...clean, fresh odor.

ORDERING DATA:

a. Spectrum

Catalog No.: **245014**
 Index: 5
 Unit Size: 16 Oz. Btl.
 Packing: 24 Btl. Case

Containing a special drying ingredient not found in any other cavity formulation, Dri Cav was developed for use on bodies which would otherwise require reaspiration. In the course of extensive field testing, our chemists learned they had succeeded not only in that objective, but had as well come up with a formula which our field testers found superior in many other ways.

b. DRI CAV

PERFORMANCE HIGHLIGHTS:

- Dodge's (and therefore the world's) best selling cavity chemical.
- Use 16 oz. in thoracic cavity and 16 oz. in abdominal... or as much chemical as space will accept.
- Excellent for cavities with unusual amounts of liquid or gas... and for "everyday" conditions as well.
- Has a wintergreen odor which helps in overcoming unpleasant odors of putrefaction.
- Firms like an ultra high index cavity—but releases far less formaldehyde into the air.
- Greatly reduces liquids found upon re-aspiration.

ORDERING DATA:

b. Dri Cav

Catalog No.: **225001**
 Index: 21
 Unit Size: 16 Oz. Btl.
 Packing: 24 Btl. Case

Freedom Cav is the first formaldehyde-free injectable preservative introduced to the funeral profession by The Dodge Company. This formula works! You can expect distinct firmness, slightly more than with SynCav, on case after case. And the preservation lasts, day after day, and week after week. No gas build up, no liquid build up, no odors.

c. FREEDOM CAV

PERFORMANCE HIGHLIGHTS:

- Keeps down formaldehyde levels. Helps with regulatory compliance.
- Complete user comfort. No fumes at all!
- Field tested on hundreds of cases. Proven preservation.
- Readily detectable firmness.
- Reaspiration not a requirement. Gases and liquids won't build up.
- No odors during use...or later!

ORDERING DATA:

c. Freedom Cav

Catalog No.: **241776**
 Index: None
 Unit Size: 16 Oz. Btl.
 Packing: 24 Btl. Case

Cavity Chemicals

Metafix, Permafex, PermaCav Fifty

Embalmers like the way Permafex drives deep into visceral tissue—yet permits an exceptional degree of working comfort. There are hardly any fumes. No delayed reactions. No unpleasant surprises. You get unquestionable preserving and disinfecting performance from this premium quality cavity chemical—the traditional professional choice of leading embalmers.

Initially formulated for correlated use with the advanced Plasdoform-based arterial chemicals, Metafix has since proved itself to be a highly effective universal cavity treatment medium with a truly remarkable performance record in producing greatly enhanced total embalming results.

PermaCav Fifty is especially formulated for embalmers who want to know they are getting the maximum formaldehyde percentage modern chemistry can place in a bottle. For professionals who want the absolute utmost in firming!

a. METAFIX

PERFORMANCE HIGHLIGHTS:

- Plasdoform-based cavity chemical.
- Fortified with a powerful quaternary disinfectant to secure ultra-disinfection.
- Kills infective pathogens, viruses, fungi on contact.
- Extends unique preservative features of Plasdoform to include cavity treatment.
- Little offensive chemical odor.
- Deep-penetrating. Powerful.
- Deodorizes the trunk cavities instantly.
- Non-bleaching, non-shrinking, non-cauterant.
- Firms visceral tissue without rock-like rigidity.
- Suppresses gas formation.
- Helpful adjunct in jaundice embalming, dropsical cases.

ORDERING DATA:

a. Metafix

Catalog No.: **210013**
 Index: 20.5
 Unit Size: 16 Oz. Btl.
 Packing: 24 Btl. Case

b. PERMAFEX

PERFORMANCE HIGHLIGHTS:

- Low surface tension formula diffuses readily.
- Induces visceral porosity.
- Penetrates cavity tissue and visceral organs deeply.
- Preserves progressively, disinfects on contact.
- Makes its own channels of diffusion.
- Shrinks tissue fibrils, enters cell membrane.
- Reaches hard-to-preserve areas of the cavities.
- Bleaches, deodorizes, destroys bacteria.
- Suppresses gas formation, purging, bloating.
- Low-fuming formula insures working comfort.

ORDERING DATA:

b. Permafex

Catalog No.: **230011**
 Index: 22.5
 Unit Size: 16 Oz. Btl.
 Packing: 24 Btl. Case

c. PERMACAV FIFTY

PERFORMANCE HIGHLIGHTS:

- Highest index available to modern embalmers.
- Petrifies visceral tissue to rock-like hardness.
- Positive, rapid-acting, powerfully penetrative.
- Bleaches, cauterizes on contact.
- May be used in external applications when wrapped.

ORDERING DATA:

c. PermaCav Fifty

Catalog No.: **235001**
 Index: 50+
 Unit Size: 16 Oz. Btl.
 Packing: 24 Btl. Case

Cavity Chemicals

De-Ce-Co

Although this traditional cavity chemical does not offer the advanced chemical refinements of more recent formulations, its constituents have been modified to conform to more modern performance standards. It is still favored by many embalmers accustomed to using a rapid reacting, rigid firming cavity embalming medium. De-Ce-Co fumes heavily—and delivers fast, dependable results. There's nothing delicate about De-Ce-Co, but it does its work with commendable effectiveness and outstanding economy.

DE-CE-CO PERFORMANCE HIGHLIGHTS:

- Full fuming.
- Strongly permeates visceral tissue and organs.
- Produces rapid, rock-hard firming—but is chemically uncontrolled.
- Deodorizes and disinfects as it preserves.
- Caulerizes and bleaches upon contact.
- May be used in all standard cavity embalming applications where firming control and working comfort are not essential factors.
- Suitable for use in external packs (when wrapped) where bleaching, cauterant action is not objectionable.

ORDERING DATA:

De-Ce-Co
Catalog No.: **220012**
Index: 22.5
Unit Size: 16 Oz. Btl.
Packing: 24 Btl. Case

Mylofix

MYLOFIX PERFORMANCE HIGHLIGHTS:

- Yields excellent preservation and penetration.
- Deodorizes and disinfects as it firms.
- Suppresses resident flora of the cavities.
- Inhibits yeasts, viruses, fungi.
- Prevents gas formation.
- Non-bleaching, non-cauterant.
- Contains special wetting and penetrating agents in a buffered, fumeless cavity embalming medium.
- May be freely used in routine cavity embalming treatments where fast, positive control of tissue decomposition is desired.
- Offers standard latitude in external pack usages and hypodermic injection applications.

Mylofix is an older formulation than SynCav, and has a somewhat higher index. It is a buffered cavity chemical specifically formulated for use by the fume sensitive embalmer. Nearly fumeless, it is compounded to provide full working comfort for the operator—yet can be relied upon to deliver dependable firming, preservation and disinfection in cavity tissue. Mylofix is widely accepted throughout the profession as a proven medium for cavity treatment.

ORDERING DATA:

Mylofix
Catalog No.: **240010**
Index: 10.5
Unit Size: 16 Oz. Btl.
Packing: 24 Btl. Case

Cavity Chemicals

SynCav

ORDERING DATA:

SynCav
Catalog No.: **250100**
Index: 5
Unit Size: 16 Oz. Btl.
Packing: 24 Btl. Case

SynCav makes no sacrifice of functional performance for the sake of working ease alone. Allergic and fume sensitive embalmers prefer this unique synergistic full power formula because it yields maximal cavity preservation with minimal working discomfort in application. SynCav takes the terror out of low index embalming – lets you breathe freely without going soft on cavity treatment.

SYNCAV PERFORMANCE HIGHLIGHTS:

- Top favorite of the fume-sensitive embalmer.
- Synergistic formula insures positive preservation with full working comfort.
- Fortified with patented Plasdoform.
- Penetrates deeply, preserves, deodorizes, disinfects.
- Suppresses fungi, yeasts, viruses. Kills cavity bacteria.
- Inhibits cavity gas formation.
- Non-bleaching, non-cauterant.

SynGels

Our SynGel products allow very low concentrations of formaldehyde to do the work which otherwise requires very high concentrations. The preservative-disinfectant action of the SynGels results in fumeless comfort with thorough preservation. The SynGels also incorporate another Dodge breakthrough: the Plasdoform molecule, which prevents "walling off," replaces jaundice pigments, and affords quaternary disinfection potency.

a.

a. SYNGEL HV

PERFORMANCE HIGHLIGHTS:

- Great on hands, face, or anywhere more surface penetration is required.
- Paint on and cover with plastic wrap.
- For autopsied cases, paint or pour liberally onto surfaces inside thoracic and abdominal cavities, and onto rib cage and flaps.
- For head posts, treat floor of cranial vault plus inside of scalp.
- In cases of skin slip, ulceration, bed sores, etc., use as a pack.
- Also good for newly amputated areas and areas where skin has been removed for grafts.

ORDERING DATA:

a. SynGel HV
Catalog No.: **509099**
Index: 10
Unit Size: 1 Lb. Jar
Packing: 1 Lb. Jar

b.

ORDERING DATA:

b. SynGel LV
Catalog No.: **308001**
Index: 10
Unit Size: 16 Oz. Btl.
Packing: 24 Btl. Case

b. SYNGEL LV PERFORMANCE HIGHLIGHTS:

- Used instead of cavity chemical for viscera of autopsies.
- Ends draining off excess fluid.
- Clings to viscera surfaces so prolonged manipulation of bag is not required to obtain complete saturation of tissues.
- Works well in pail or bag.

Accessory Chemicals

Dry Wash II

Specifically formulated for mortuary hairdressing, Dry Wash II is a fast drying, de-greasing shampoo that won't change hair color or interfere with permanents or natural curls. It can be used on a clean pad to remove unabsorbed massage cream.

DRY WASH II PERFORMANCE HIGHLIGHTS:

- Leaves hair manageable, soft, and lustrous.
- Revives permanent waves.
- Removes grease, dandruff.
- Dries quickly – saves hairdressing time.
- Thins cosmetics.
- Excellent solvent. Removes cream, cleans brushes, etc.
- Removes stains (test the fabric first).
- Contains no trichloroethylene.

ORDERING DATA:

Dry Wash II

Catalog No.: **520072**
Unit Size: 16 Oz. Btl.
Packing: Single Btl.

Dry Wash II

16 Oz. Btl. **520015**
Unit Size: 16 Oz. Btl.

Kaloform

ORDERING DATA:

a. Kaloform Preservative Cream
Catalog No.: **690115**
Unit Size: 16 Oz. Jar

b. Kaloform Preservative Cream
Catalog No.: **690107**
Unit Size: 2 Oz. Jar

Kaloform, an emollient massage cream containing formaldehyde, achieves external preservation of areas not reached by arterial injection.

KALOFORM PERFORMANCE HIGHLIGHTS:

- Easy to apply.
- Aids in treating "soft" areas.
- Will not wrinkle tissue.

Formaldegone

Formaldegone, a formaldehyde gas eliminator, has no odor of its own. It contains no dangerous chemicals, yet it immediately eliminates formaldehyde odors.

ORDERING DATA:

Formaldegone
Catalog No.: **550001**
Unit Size: 16 Oz. Btl.
Packing: Single Btl.

FORMALDEGONE PERFORMANCE HIGHLIGHTS:

- Formaldegone combines chemically with formaldehyde rather than masking it.
- A terrific aid in complying with OSHA.
- Always immediately effective.
- Can be re-used if the source continues to generate vapors.
- Repeated spraying can cause some floors to become slippery or tacky. Use caution walking. A damp paper towel quickly and easily removes any undesirable film.

Accessory Chemicals

Dis-Spray

Formaldehyde-Free, Fortified with Mold-X, this new formula provides all the power you need. Dis-Spray is still an exceptional preserving and deodorizing embalming spray.

DIS-SPRAY PERFORMANCE HIGHLIGHTS:

- Cuts through surface dirt and body-oil film. Helpful in removing oily exudate when a high fever has occurred prior to death.
- Exceptional preserving and deodorizing embalming spray.
- Enhanced with Mold-X.
- Can be used on even the most delicate tissues including infant cases and the most tender facial areas.

ORDERING DATA:

Dis-Spray

Catalog No.: **505032**
Unit Size: 16 Oz. Btl.
Packing: Single Bottle

Dis-Spray

Catalog No.: **505016**
Unit Size: 16 Oz. Btl.
Packing: 6 Btl. Case

Catalog No.: **505065**
Unit Size: 1 Gallon Plastic Jug

Dryene

The Dodge Dryenes have earned their reputation as one of the most useful and versatile chemical groups of the profession. With almost infinite technical applications in embalming service, these preservative cauterants merit a place in every preparation room — for they more than pay their way in operational ease, professional convenience, and truly outstanding embalming performance.

ORDERING DATA:

a. Basic Dryene

Catalog No.: **515031**
Unit Size: 16 Oz. Btl.
Packing: Single Btl.

Basic Dryene

Catalog No.: **515023**
Unit Size: 16 Oz. Btl.
Packing: 6 Btl. Case

DRYENE PERFORMANCE HIGHLIGHTS:

- **Basic Dryene...** treats broken skin areas.
- Dries, bleaches, cauterizes, preserves, deodorizes, disinfects.
- Basic Dryene is formulated to bleach strongly.
- Effective as a cavity chemical in cases where tissue gas is evident.
- Basic Dryene is shipped only by freight – not by overnight delivery services.
- **Penetrating Dryene...** treats dropsical cases, unbroken skin areas. Penetrates, dries, cauterizes, preserves, deodorizes.
- Penetrating is formulated not to bleach significantly. (Slight bleaching will occur slowly.)

ORDERING DATA:

b. Penetrating Dryene

Catalog No.: **515080**

Accessory Chemicals

Pore Closer

Pore Closer has an exceptionally broad range of practical applications in the preparation room.

ORDERING DATA:

- a. Pore Closer**
Catalog No.: **525261**
Unit Size: 13 Oz.
Plastic Btl.
- b. Pore Closer**
Catalog No.: **525253**
Unit Size: 7 Oz.
Glass Btl.

PORE CLOSER PERFORMANCE HIGHLIGHTS:

- Restores a natural surface in every category of broken-skin condition.
- Prevents leakage and forms an excellent base for artful cosmetic finishing.
- Adheres firmly, creates a naturally contoured, safely sealed, and stable surface highly receptive to all standard restorative and cosmetic components.
- Acts as its own solvent.

TYPICAL PORE CLOSER INDICATIONS:

- Seals exposed Inr-Seel applications
- Surface lacerations
- Deep wounds
- Disease lesions
- Surgical excisions
- Burns, sores, abrasions

Perma-Seel

Catalog No.: **525295**
Unit Size: 6 Oz.
Aerosol
Can

- f. Perma-Seel Solvent**
Catalog No.: **525402**
Unit Size: 13 Oz. Btl.

Accessory Chemicals

Adhesive

Aron Alpha

This unique adhesive has become the choice of many operators in the prep room. Chemically, Aron Alpha is composed mainly of alpha cyanoacrylate monomer in a liquid state. When this monomer is applied in a single thin coating to a bonding surface, it instantly solidifies through polymerization to produce an extra high strength bond. Perhaps you should see why so many embalmers choose Aron Alpha.

ARON ALPHA PERFORMANCE HIGHLIGHTS:

- Closes mouths, seals incisions and I.V. holes.
- Produces an extra high strength bond, up to 5,000 lbs. per square inch.
- Low viscosity permits easy spreading over surfaces to be bonded, and the bond is colorless and transparent.
- Bond strength does not decrease within a temperature range from + 212°F to minus 112°F.
- Sets very rapidly (within 10 to 45 seconds).

ORDERING DATA:

a. Aron Alpha

Catalog No.: **920157**

Unit Size: 5-pack of 2 Gram Vials

b. Aron Alpha Gel

Catalog No.: **920161**

Kalip

ORDERING DATA:

c. Kalip Stay Cream

Catalog No.: **680017**

Unit Size: 2 Oz. Jar

d. Kalip Stay Cream

Catalog No.: **680025**

Unit Size: 16 Oz. Jar

Kalip is a light-colored, firm-bodied blend of rich tissue emollients contained in an adhesive base. Its consistency is heavy enough to give dependable holding action – but without the rigidity, skin “drawing,” and surface dehydrating effects of ordinary cement-like adhesives.

KALIP STAY CREAM PERFORMANCE HIGHLIGHTS:

- Fully workable and easily applied.
- Can be used on the delicate tissues of the eyes, lips, and nostrils.
- Smooths unsightly wrinkles and folds in place.
- Useful for filling the tiny separation which can occur between lips – as well as small fissures on a lip.

ZipLip

ZipLip, a fast setting liquid adhesive for immobilizing lips and eyelids, is truly superior to all other cements of this type on the market.

ZIPLIP PRESSURE SENSITIVE ADHESIVE PERFORMANCE HIGHLIGHTS:

- Prevents unsightly parting.
- Holds well, yet remains invisible.
- Sets firmly, and can be separated and re-set if adjustments are necessary.
- For those who prefer a bond considerably less tenacious than that created by the cyanoacrylates.
- Brush applicator attached to cap.

ORDERING DATA:

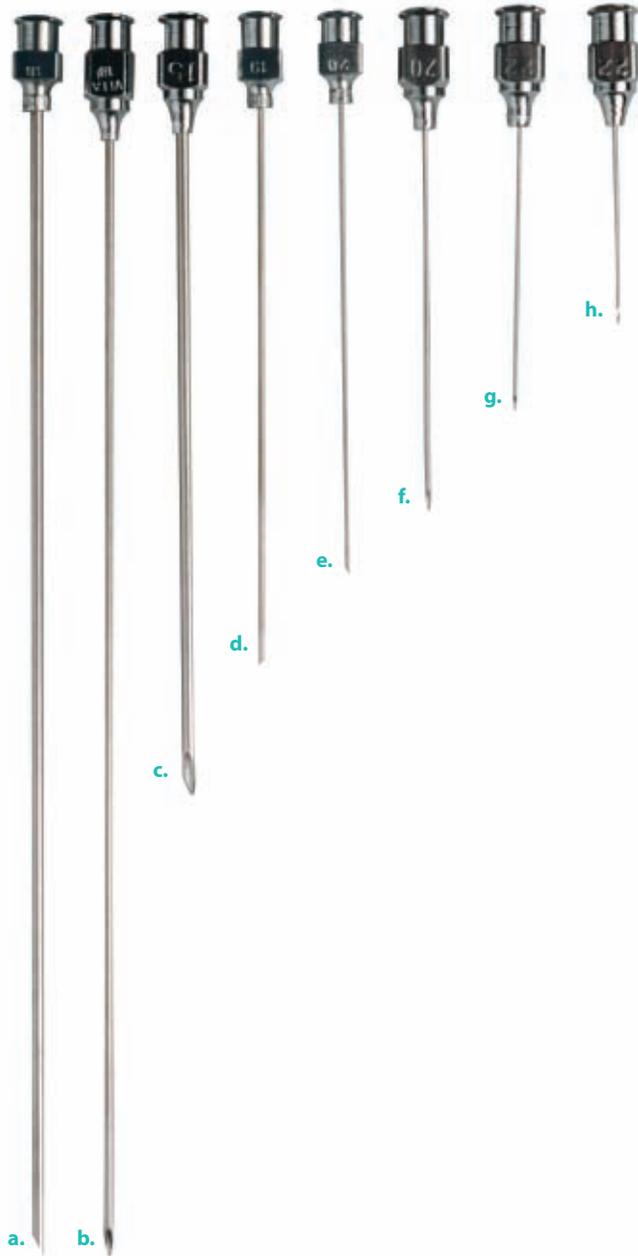

ZipLip

Catalog No.: **690020**

Unit Size 1/2 Oz. Btl.

Accessory Chemicals

Hypodermic Needles

a.-h. HYPODERMIC NEEDLES PERFORMANCE HIGHLIGHTS:

- Disposable Needle, 21 gauge, 2" length**
Standard Size – Catalog No.: **704353**

If the plastic hubs of the disposable needles and syringes are treated with a minimum of care, all of the metal and plastic hubs from the disposable and non-disposable syringes can be used with one another.

Accessory Chemicals

Feature Builder

One of the most versatile and useful embalming accessory chemicals we know of, this fast-setting tissue-filling gel rebuilds characteristic facial features and helps restore normal appearance to dehydrated, emaciated cases. Fills, firms, and plumps without risk of after-set shrinkage. Improves and accentuates the illusion of repose in the final presentation. Available in two types: Regular for normal tissue-filling, and Firming for areas that need preservation as well as filling.

a. FEATURE BUILDER REGULAR
b. FEATURE BUILDER FIRMING
PERFORMANCE HIGHLIGHTS:

- Free flowing for fast, easy hypodermic injection.
- Sets rapidly, remains stable. Won't shrink.
- Restores natural expression, normal tissue contour.
- Seals needle-punctures.
- Masks facial muscle shadow, repels spotting, mottling.

Accessory Chemicals

Inr-Seel

Specifically formulated to safeguard against troublesome post-embalming upsets, these mastic molding and holding compounds are numbered among the most versatile and useful in the mortuary establishment. When either of these compounds is exposed to the air, it should be coated with Pore Closer or Perma Seel to avoid the shrinkage that would otherwise occur.

INR-SEEL PERFORMANCE HIGHLIGHTS:

- Soluble in cold water, cleans up easily. Contains a germicide, fungicide, and deodorant.
- Fills out eyelids. Seals hypo punctures, bullet holes, ear leakage.
- Excellent for use on eye enucleation and cranial autopsy cases.

ORDERING DATA:

Inr-Seel
Catalog No: **555011**
Unit Size: 1 lb. 3 Oz. Jar

Inr-Seel
Catalog No: **555029**
Unit Size: 6 lb. 3 Oz. Tub

Heavy Compound Injector

ORDERING DATA:

a. Heavy Compound Injector
(Cap and nozzles included)
Catalog No: **703603**

b. Round Nozzle only
Catalog No: **703611**

c. Flat Nozzle only
Catalog No: **703629**

Our Heavy Compound Injector is precision-engineered with 2 interchangeable nozzles for pre-shaping and injecting Inr-Seel and Poze. It also comes with a cap (shown lower left in photo) which covers either attached nozzle. The injector gives perfect flow control, simplifies heavy compound handling in restorative operations. Chrome-nickel plated, all of its parts are removable for quick, easy cleaning. This is a lifetime instrument.

Poze

POZE PERFORMANCE HIGHLIGHTS:

- Will not act like a wick in the mouth as will cotton.
- Contains a germicide, a fungicide, and highly effective deodorants.
- Sets firm, but can be made plastic again by manipulation if desired.

ORDERING DATA:

Poze
Catalog No: **525501**
Unit Size: 1 lb. 3 Oz. Jar

Poze
Catalog No: **525519**
Unit Size: 6 lb. 2 Oz. Tub

Embalming Powders

Action

ACTION EMBALMING POWDER **PERFORMANCE HIGHLIGHTS:**

- Assured performance on burned, plane crash, auto accident cases, and the like.
- Excellent inside caskets, grave vaults, mausoleums, and crypts.
- Very useful for bed sores and cancerous or putrefactive areas.
- Effective in lieu of hypo work on wet or dry decomp cases.
- Use with plastic undergarments to preserve edematous arms or legs.
- Can be used rather than Viscerock on autopsied cases.
- Preferred by many for use on infant and disinterred cases.

ORDERING DATA:

a. Action Embalming Powder – Jar

Catalog No: **536099**

Unit Size: 14.5 Oz. Jar

b. Action Embalming Powder – Pail

Catalog No: **536100**

Unit Size: 25 Lb. Pail

Viscerock

VISCEROCK CAVITY COMPOUND **PERFORMANCE HIGHLIGHTS:**

- Nearly dustless.
- Fortified with patented Synergistic action.
- Free-flowing, non-caking in any weather.
- Adheres to tissue surfaces.
- Drying...makes tissues taut.
- Absorbs 370% of its own weight.
- Anti-gassing. Won't create sour odors as Viscerock imitations do.
- For autopsied cavities or cranium. In diapers or plastic garments for groin area.

ORDERING DATA:

Viscerock Cavity Compound – Pail

Catalog No: **535112**

Unit Size: 6.5 Gallon Pail

ORDERING DATA:

VP (Viscerock Plus)

Catalog No: **535202**

Unit Size: 3 Lb. 8 Oz.

VP (VISCEROCK PLUS) PERFORMANCE HIGHLIGHTS:

- Combines the powerful preservative attributes of regular Viscerock with the intense absorptive abilities of DodgeSorb.
- Much easier to store...much easier to lift.
- Use 1/4 as much powder or less, compared to regular preservative powders.
- Adheres better.
- Pleasant scent.

Embalming Powders

Q-S

Q-S QUICK SEALING POWDER PERFORMANCE HIGHLIGHTS:

- Forms powerful, positive, dependable closures.
- Contains highly effective preserving and deodorizing chemicals.
- Contains Dodge's patented Plasdoform molecule for extra thorough preservation.
- Pleasant to use. Does not create dust in the air.
- Will not cake or turn gummy. Lasts for years if kept closed.
- Excellent for incisions, wounds, open lesions, suture needle holes, body orifices, and autopsied cases.
- Works virtually on contact. No waiting around for a seal to develop.

ORDERING DATA:

a. Q-S Powder

Catalog No.: **560110**

Unit Size: 9 Oz. Jar

b. Q-S Powder

Catalog No.: **560136**

Unit Size: 3 Lb. 10 Oz. Jar

c. Q-S Powder – Pail

Catalog No.: **560151**

Unit Size: 25 Lb. Pail

Hardening Compound

ORDERING DATA:

Hardening Compound

Catalog No.: **530022**

Unit Size: 6.5 Gallon Pail

HARDENING COMPOUND PERFORMANCE HIGHLIGHTS:

- High-bulking, granular-type absorbent compound.
- Recommended for low-cost filling, drying, and hardening on autopsied cases.
- Helps suppress offensive odors.
- Delivers limited preservation as it dries and firms moist tissue.
- Will not cake or solidify in the drum.
- Simple and economical in application.
- Pleasant lemon scent.

Absorbent Products

DodgeSorb Powder

ORDERING DATA:

a. DodgeSorb Absorbent Powder

Catalog No.: **532226**
Unit Size: 25 Lb. Pail

b. DodgeSorb Absorbent Powder

Catalog No.: **532214**
Unit Size: 3 Lbs. 3 Oz. Jar

DODGESORB ABSORBENT POWDER PERFORMANCE HIGHLIGHTS:

- Absorbs copious amounts of moisture.
- Perfect inside plastic garments on cases to control or prevent leaking.
- Excellent insurance for your ship-out cases.
- Use in caskets stored in mausoleums and receiving vaults used for winter storage.
- Cleans up prep room spills quickly and easily.
- Absorbs all the moisture inside bone donation incisions.
- The uses for DodgeSorb are limited only by your imagination.

DodgeSorb Sheets, DodgeSorb Liners

a. DODGESORB ABSORBENT SHEETS

PERFORMANCE HIGHLIGHTS:

- Each sheet consists of three layers: a top fabric layer, a DodgeSorb-impregnated middle layer, and a plastic bottom layer.
- Even after exposure to moisture, they retain integrity and can be removed from their area of use.

White Sheet 25" x 72"

- For use over or under the body.
- Absorbs approximately 4.6 liters of fluid.

White Sheet 63" x 90"

- For use in wrapping the entire body.
- Absorbs approximately 6.2 liters of fluid.

ORDERING DATA:

a. DodgeSorb Absorbent Sheets

White Sheet 25" x 72"

Catalog No.: **038345**
Unit Size: Five per package

White Sheet 63" x 90"

Catalog No.: **038340**
Unit Size: Five per package

b. DODGESORB ABSORBENT LINERS

PERFORMANCE HIGHLIGHTS:

- These liners consist of an exposed layer of DodgeSorb-impregnated material, which will turn to loose gel in the presence of moisture. Therefore, a liner must be left in place once it is dampened.

White Liner 25" x 86"

- Absorbs approximately 5 liters of fluid.
- For use inside caskets being entombed.

ORDERING DATA:

b. DodgeSorb Absorbent Liners

White Liner 25" x 86"

Catalog No.: **038375**
Unit Size: Five per package

Absorbent Products

DodgeSorb Inserts

DODGESORB ABSORBENT INSERTS PERFORMANCE HIGHLIGHTS:

- These are smaller absorbent pads with a DodgeSorb layer inside two fabric layers.

Small Insert 3.25" x 10"

- Absorbs approximately 323 ml of fluid.
- Used for packing cranial, thoracic, and tracheal stomata.

Medium Insert 3.25" x 14"

- Absorbs approximately 478 ml of fluid.
- A tube-like pad through which can be inserted a PVC pipe prosthetic, or use as a pad.

Large Insert 3.25" x 37.5"

- Absorbs approximately 1000 ml of fluid.
- Also tube-like; fits around long bone prosthetics.

ORDERING DATA:

Catalog No.: **038320**
Unit Size: 10 per case

DodgeSorb Garments

DODGESORB ABSORBENT GARMENTS PERFORMANCE HIGHLIGHTS:

- Fluid impervious white plastic sleeves and stockings have an inner liner that contains a layer of DodgeSorb to provide added protection by capturing and containing fluids.
- All openings are elasticized to reduce leakage.

ORDERING DATA:

DodgeSorb Absorbent Sleeve

Catalog No.: **760882**
Unit Size: Two per bag

ORDERING DATA:

DodgeSorb Absorbent Stocking

Catalog No.: **760885**
Unit Size: Two per bag

Absorbent Products

DodgeSorb Cranial Caps

DODGESORB ABSORBENT CRANIAL CAPS PERFORMANCE HIGHLIGHTS:

- Cranial caps are designed to absorb seepage due to autopsied or mutilated heads.
- Inside of the cap is absorbent, while the outside is fluid-impervious.
- Conveniently conforms to the shape of the head.
- Slide under the head and the cap sinks into the casket pillow.

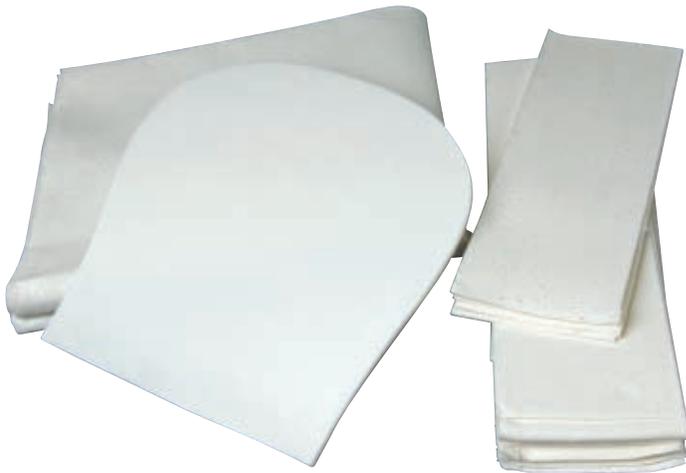

ORDERING DATA:

DodgeSorb Absorbent Cranial Caps

Catalog No.: **750594**

Unit Size: Twelve per bag

DODGESORB ABSORBENT KIT PERFORMANCE HIGHLIGHTS:

- Each kit contains five small inserts, five medium inserts, two large inserts, one white liner, and one cranial cap.

Hand Disinfectants

QuikSan®

QuikSan is the only hand sanitizer we know which contains a surface active protective colloid to minimize drying of the skin. In addition to its germicidal alcohol base, QuikSan contains a quaternary ammonium disinfectant, which greatly fortifies sanitizing action. In its Bloodborne Pathogen Standard, OSHA states, "When provision of hand washing facilities is not feasible, the employer shall provide...an appropriate antiseptic hand cleanser..." We are often in this situation. QuikSan is an antiseptic hand cleanser. Your funeral home needs to have it available at all times.

QUIKSAN® WATERLESS HAND SANITIZER PERFORMANCE HIGHLIGHTS:

- Waterless hand sanitizer.
- Available in 4 convenient sizes.
- Perfect for sanitizing hands when washing facilities are not accessible, when making removals, at an accident scene, or in just about any type of disaster.
- Keep it in your first call vehicles.
- Contains Triclosan, a wide-spectrum disinfectant.

ORDERING DATA:

QuikSan® Waterless Hand Sanitizer

Hand Soaps

Germasidol® Antiseptic Soap

GERMASIDOL ANTISEPTIC SOAP (WITH TRICLOSAN WIDE SPECTRUM DISINFECTANT) PERFORMANCE HIGHLIGHTS:

- Available in four convenient service sizes:
 - 8.5 Oz. Dispenser Bottle (Refillable plastic bottles.)
 - 16 Oz. Pump Bottle (Perhaps the most convenient of Germasidol packages! May be refilled numerous times.)
 - 24 Oz. Refill Bottle (Handy nozzle cap. Can also be used to refill the smaller 8.5 and 16 ounce bottles.)
 - 1 Gallon Plastic Jug (Standard service supply unit. Shatterproof. Economical for refilling 8.5 ounce bottles, washroom containers, 16 ounce pump bottles, and 24 ounce bottles.)
- Germasidol has dozens of personal hygiene and environmental health applications in the mortuary establishment and household.
- Cuts through grease and body oils.
- Penetrates epidermal pores, removes ingrained dirt with ease.
- Helps prevent infection.
- Powerfully germicidal, yet gentle to the skin.
- Leaves hands surgically clean and free of soapy film.

Forest Fresh Herbal Lotion Soap has a delightful herbal fragrance with an attractive blue-green pearlescent appearance and luxurious texture. Visitors to your funeral home will appreciate Forest Fresh in every public lavatory. Skin softening conditioners leave hands fresh, clean, powdery smooth, and lightly scented. Leaves no tacky or greasy feeling on the skin afterwards – rinses clean.

FOREST FRESH HERBAL LOTION SOAP (WITH TRICLOSAN WIDE SPECTRUM DISINFECTANT) PERFORMANCE HIGHLIGHTS:

- Rich pearlescent lotion soap.
- Light frothy lather.
- Herbal evergreen fragrance.
- Economical... refill the pump from the handy gallon jug.
- Contains Triclosan, a wide-spectrum disinfectant.
- No waste and no messy soap dish.
- Foams equally in hard or soft water.
- Use without water as shaving cream.
- Excellent mortuary shampoo.
- Achieves superior results as a car washing detergent! (or so we've been told!)

Forest Fresh® Herbal Lotion Soap

Disinfectants

DSD

DSD DISINFECTANT PERFORMANCE HIGHLIGHTS:

- Sporicidal, virucidal, bactericidal, tuberculocidal, pseudomonacidal, fungicidal
- **Cleaning/decontamination:**
Blood and body fluids must be cleaned from hard, non-porous objects before application of DSD. For disinfection or sterilization of instruments and equipment, clean, rinse, and rough dry before immersing in DSD.
- **Sterilization:**
Immerse instruments completely in DSD solution for at least 10 hours at 22°C. Aseptically remove instruments and rinse with sterile water.
- **High Level Disinfection:**
Immerse in DSD solution for at least 45 minutes at 22°C. Remove instruments and rinse thoroughly with water. Using sterile vs. potable water is dependent on the intended use of the instrument.
- **Intermediate Level Disinfection:**
Immerse in DSD for at least 10 minutes at 22°C. This will destroy vegetative bacteria including *Pseudomonas aeruginosa*, pathogenic fungi, and specified viruses as indicated on the package insert. Such immersion will not destroy large numbers of *Mycobacterium tuberculosis*. Remove instruments and rinse.
- Full strength solutions can be re-used for sterilization, high level disinfection, or intermediate level disinfection for a period not to exceed 30 days.

ORDERING DATA:

DSD Disinfectant
Catalog No.: **502902**
Unit Size: 1 Gallon

Lemocide

LEMOCIDE DISINFECTANT PERFORMANCE HIGHLIGHTS:

- Dilutable hard surface cleaner, disinfectant, detergent, deodorizer, fungicide and virucide.
- Effective against *E. coli*, *Salmonella*, *Streptococcus*, *Shigella*, MRSA and VISA when diluted as directed.
- It also has excellent virucide activity against Influenza A2, HIV, HBV, and HCV.

ORDERING DATA:

Lemocide Disinfectant
Catalog No.: **761986**
Unit Size: 1 gallon jug

Solucide

a., b. SOLUCIDE DISINFECTANT PERFORMANCE HIGHLIGHTS:

- Ready-to-use disinfectant cleaner in a convenient 16 oz. sprayer and 1 gallon container.
- Has a fresh lemon scent.
- Contains no phenol, alcohol, or glutaraldehyde so it has no added HazMat shipping fees!
- EPA registered.
- Effective tuberculocidal – kills HIV, HBV, and HCV.

ORDERING DATA:

a. Solucide Disinfectant
Catalog No.: **502878**
Unit Size: 1 gallon jug

b. Solucide Disinfectant
Catalog No.: **502877**
Unit Size: 16 oz. bottle with trigger sprayer

Disinfectants

Full Spectrum Wipes

Fresh Breeze TB

a., b. FRESH BREEZE TB DISINFECTANT PERFORMANCE HIGHLIGHTS:

- For disinfection, deodorizing and cleaning.
- Use as directed as an effective tuberculocidal, bactericidal, and virucidal against Mycobacterium Tuberculosis, *S. aureus*, *E. coli*, MRSA, VISA, HIV-1, Hepatitis B, Hepatitis C and others.
- Can be used on hard, non-porous surfaces, bathrooms, prep rooms and inanimate environmental surfaces.
- Available in a 1 quart bottle and a gallon jug.

ORDERING DATA:

a. Fresh Breeze TB Disinfectant
Catalog No.: **502985**
Unit Size: 1 Gallon

b. Fresh Breeze TB Disinfectant
Catalog No.: **502986**
Unit Size: 1 quart container

DODGE FULL SPECTRUM DISINFECTANT WIPES PERFORMANCE HIGHLIGHTS:

- Fast, effective antibacterial formula for cleaning and disinfecting.
- Use to wipe down stretchers, cots, tables, phones and hard surfaces in the prep room.
- Effective against MRSA, VISA, Norovirus, *E. coli*, *S. aureus*, and TB.
- Each plastic tub contains 180 wipes.

ORDERING DATA:

Dodge Full Spectrum Disinfectant Wipes

Dri-Fresh

The only dry spray available to the funeral profession! With ordinary air fresheners, the spray contains large droplets. These droplets are unpleasant to walk through or breathe, and they can cause an unsightly mess on hard surfaces.

DRI-FRESH DEODORANT SPRAY PERFORMANCE HIGHLIGHTS:

- New technology allows for a finely atomized dry spray.
- 100% of the fragrance is available instantly to deodorize and freshen the room.
- No messy fall-out, residues, wetting, or staining.
- VOC compliant.

ORDERING DATA:

Dri-Fresh Deodorant Spray
Catalog No: **910571**
Unit Size: 10 Oz. Aerosol Can

D-12

D-12 DEODORANT POWDER PERFORMANCE HIGHLIGHTS:

- Disperses odors, freshens public rooms, chapels, offices.
- Many embalmers use D-12 on gangrenous, cancerous and ulcerated cases.
- May be used dry near or directly on the source of offensive odors.
- May be used in aqueous solution as a deodorant spray and room freshener.
- Destroys, suppresses offensive odors.
- Leaves no after-scent of its own.
- Gives long-lasting deodorizing effectiveness.
- Will not cake or harden in the container.

ORDERING DATA:

D-12 Deodorant Powder
Catalog No: **502013**
Unit Size: 14 Oz. Jar

ORDERING DATA:

Air Interceptor

ORDERING DATA:

a. Air Interceptor
Catalog No: **712500**
Unit Size: 1/2 lb. tub

AIR INTERCEPTOR PERFORMANCE HIGHLIGHTS:

- Non-toxic and environmentally friendly solution for reducing odors in the preparation room and funeral home.
- Semi-solid biodegradable evaporant gel absorbs and neutralizes odors on a molecular level.
- Available in 1/2- and 4-pound containers and can last up to 2 months.
- To use, remove the cover and place the container on a shelf or wherever the odor is concentrated.

ORDERING DATA:

b. Air Interceptor
Catalog No: **712501**
Unit Size: 4 lb. tub

Skin Lotion

Velvato[®]

Velvato is made of only the purest, non-allergenic, cosmetic grade materials. It has no greasy feel and absorbs completely without residue. Its light fragrance appeals to men and women alike. Velvato contains humectant, emollient, and healing ingredients.

Convenient 2 and 4 oz. dispensers have been used for years in our field as goodwill gifts. They are available with special gift boxes and/or personalized imprints identifying your firm. (The 4 oz. size comes with boxes included.) Recipients from outside funeral service have written to us repeatedly over the years extolling Velvato.

VELVATONE SKIN LOTION PERFORMANCE HIGHLIGHTS:

- Cleans up rashes, irritations, chafing, and eczema.
- Excellent for those who must wash their hands often and/or for hands exposed to harsh chemicals.
- Soothing and healing on sun-burned skin.
- Prevents razor burn when used instead of shaving cream on men's beards, women's legs and underarms.
- Helps clear up cold sores.
- Helps prevent bedsores in nursing home patients.

	Orchid Catalog No.: 642934 Unit Size: 4 Oz. Catalog No.: 642942 Unit Size: 14.Oz.

Please note: The color samples shown indicate the color of the cosmetic in the jar. In the case of opaque cosmetics, this is also the color you'll see when the cosmetic is applied to the skin. This is not necessarily so for transluents. Kalon Cream Blonde, Pink, and Deep Flesh are three shades which do not look the same in the jar and on the skin. Blonde, for example, is not at all orange when applied; it simply imparts a warm flesh tone. Also please understand that some of the colors shown here will be imperfect reproductions of the colors of the cosmetics. This is a function of the limitations of modern four-color printing, but will serve as reasonable guides. These matches are still relatively close.

Please see previous page for Kalon Pigments

Cosmetics

Kalochrome Creams

KALOCHROME COSMETIC CREAMS PERFORMANCE HIGHLIGHTS:

- Kalochrome Creams can be spread heavily (opaquely) over areas requiring covering, and then thinly (translucently) over other areas on the same body where covering is not required.
- When applied at medium thickness, the Kalochrome Creams tend to be semi-opaque.

- Remarkable lifelike duplication of natural complexion characteristics may be quickly and easily achieved by interblending and applying these smooth, rich tinted creams with Kalochrome Cosmetic Powders.
- Available in two convenient sizes (0.5 oz. and 1 oz.) in numerous color-stabilized shades for matching male and female complexions in virtually every age group.
- Non-caking and easily blended, these creams are a cosmetic medium of great versatility for creating truly artistic cosmetizing.

Cosmetics

Aquachrome

Aquachrome cosmetics are water-based like the cosmetic available in drugstores... but it's formulated specifically for our field. It's translucent, so it imparts a natural no-masking tone to the skin. Included in the formula are:

- *Natural moisturizers and softening agents, derived from lanolin and cholesterol, which are similar to the lipids in the fat of the skin.*
- *Hygroscopic materials which penetrate the skin, absorb moisture, and leave no greasy feel.*
- *Materials which form water-resistant skin films with a fine texture and a non-drying effect.*

AQUACHROME WATER-BASED COSMETICS PERFORMANCE HIGHLIGHTS:

- Every ingredient in Aquachrome is non-toxic and non-irritating to the skin.
- Special ingredients give stability of viscosity and emulsion for long shelf-life.
- Ingredients are cosmetic grade, including the pigments which are accepted for use on the skin by the FDA.
- Preservative system is a broad-spectrum one, effective against gram-negative bacteria such as pseudomonads and against yeasts and molds.

Complexion Cream

COMPLEXION CREAM TRANSLUCENT/OPAQUE COSMETICS PERFORMANCE HIGHLIGHTS:

- Complexion Creams are to an extent dual purpose; depending on the thickness of application, they can be translucent or somewhat opaque.
- Complexion Creams tend toward translucency more than Kalochromes, however. Apply a light to moderate application over normal skin, but then apply heavier to cover razor burns or slight ecchymosis.
- A particular favorite of *The Dodge Magazine* author Dennis Daulton, he suggests you try the flesh shade on male or female Caucasians of medium or average skin color.

The Perma concept of embalming cosmetology was specifically developed to extend the scope of the embalmer's art beyond ordinary cosmetic preparations. The Perma pigments and powders simplify and accelerate the cosmetic procedure. You'll find that they function with exceptional effectiveness – even under the most difficult post-mortem conditions. Inter-mixable, fast-drying, non-caking. Will not crack or peel. Infinite color range with superb masking qualities.

Cosmetics

Complexion Spray

COMPLEXION SPRAY TRANSLUCENT LIQUID COSMETICS PERFORMANCE HIGHLIGHTS:

- Applied by atomizer or brush.
- Complexion Sprays produce a delicate, natural-looking glow of transparent, non-masking color.
- Help recreate the true tones of living flesh on a wide range of complexion types.

ORDERING DATA: Complexion Spray Translucent Liquid Cosmetics

	Light Catalog No.: 690641 Unit Size: 7 Oz.	Catalog No.: 690669 Unit Size: 13 Oz.
	Medium Catalog No.: 690647 Unit Size: 7 Oz.	Catalog No.: 690693 Unit Size: 13 Oz.
	Dark Catalog No.: 690643 Unit Size: 7 Oz.	Catalog No.: 690677 Unit Size: 13 Oz.
	Suntan Catalog No.: 690645 Unit Size: 7 Oz.	Catalog No.: 690685 Unit Size: 13 Oz.

French Rose Tint

FRENCH ROSE TINT TRANSLUCENT LIQUID COSMETICS PERFORMANCE HIGHLIGHTS:

- Applied by atomizer or brush.
- French Rose Tints produce a delicate, natural-looking glow of transparent, non-masking color.
- Help recreate the true tones of living flesh on a wide range of complexion types.

ORDERING DATA: French Rose Tint Translucent Liquid Cosmetics

	Light Catalog No.: 690835 Unit Size: 7 Oz.	Catalog No.: 690842 Unit Size: 13 Oz.
	Medium Catalog No.: 690839 Unit Size: 7 Oz.	Catalog No.: 690875 Unit Size: 13 Oz.
	Dark Catalog No.: 690837 Unit Size: 7 Oz.	Catalog No.: 690859 Unit Size: 13 Oz.

Please Note: The three color swatches look alike because all three shades look alike in the bottle. There is a slight difference in darkness between each shade when applied.

Complexion Spray and French Rose Tint are both translucent liquid cosmetics made from almost exactly the same base of solvents. It is the dyes used in each shade in both lines that vary and account for the differences among the seven tones. Helps produce a faultless, highly refined cosmetic finish.

Cosmetics

Softouch

SOFTOUCH LIQUID POWDER PERFORMANCE HIGHLIGHTS:

- Old-fashioned liquid powders separate out of suspension almost between brush strokes, thus requiring constant recapping and agitation, but Softouch Liquid Powder stays in suspension longer.
- Accelerated drying time is another advantage.
- Far less costly than other liquid powders.

- Packaged in a wide-neck bottle for easy application.
- Formulated to simulate natural skin tone – creating a complexion coloring that seems to radiate from within the skin.
- Transparent quality of the liquid powder suspension prevents any masking effect from covering the natural markings and skin pigmentation.
- Creates a truly lifelike appearance.

Cosmetics

Silcolan

a. SILCOLAN SPRAY EMOLLIENT PERFORMANCE HIGHLIGHTS:

- Clear emollient spray for use on the face, neck, and hands. It can be used before, during, and after embalming. It will seem to soak in as it dries, leaving a clear film.
- Unique blend superior to all similar spray emollients currently available. It contains silicone, lanolin derivatives, emollient esters, and jojoba oil (as well as other ingredients).
- Creates a smoother texture, will prevent moisture loss, lubricate, and maintain pliancy.
- Compatible with all types of cosmetic applications.
- Can also be sprayed as a lubricant on arterial tubes, drain tubes, and trocars. This will allow ease of entry and can prevent a vessel from being ruptured. Try spraying the table to prevent drainage from adhering.

b. PUMP SILCOLAN SPRAY EMOLLIENT PERFORMANCE HIGHLIGHTS:

- Pump Silcolan gives you the same clear emollient spray in a new package.
- Same great emollient formula.
- Now in an environmentally preferred pump style dispenser.

Unit Size: 4 Oz. Pump Sprayer

Undercoat

Undercoat is an opaque cosmetic meant to cover discolored areas without creating a painted effect. It should be used over discolorations caused by injury, ecchymosis, intravenous punctures, burns, as well as over waxed areas and areas of extensive restorative work.

UNDERCOAT OPAQUE SPRAY COSMETIC BASE

PERFORMANCE HIGHLIGHTS:

- Even in cases where bleaching chemicals can't remove a stain, Undercoat will cover it.
- Undercoat will not crack or peel after drying when applied in thin layers, nor will it lift off when touched. In fact, it is intended that further cosmetics be applied over Undercoat.
- Equally valuable to cover stains on the hands as well as the face
- No powder is required to set Undercoat, and there's no waste.
- The propellant complies with all EPA rules and contains no fluorocarbons.
- Undercoat will create no dehydration problems, as some spray cosmetics can.

ORDERING DATA:

Cosmetics

Brushes – Spreading and Tinting

Brush measurements are stated in terms of the length across the bristle-end of the ferrule. That is, the measurement is taken at the point where the bristles unite with the metal sleeve. Brushes shown at actual size.

SPREADING BRUSHES

- a. 1" Cream Spreader** – Length 9 1/4"
Catalog No: **701938**
- High quality white bristle brush designed for fast, easy application of standard cosmetic creams. Tapered bristles permit smooth uniform distribution.
- b. 1/2" Liquid Spreader** – Length 8 1/4"
Catalog No: **701987**
- Full-bodied, flexible bristle for applying liquid pigments and light creams to small areas.
- c. 1" Heavy Liquid Spreader** – Length 7 7/8"
Catalog No: **701763**
- Long, springy bristles make this brush ideal for applying heavy, viscous liquids.
- d. 1" Tint Spreader** – Length 7 1/4"
Catalog No: **701821**
- High grade, long-bristled brush is specially designed for distributing liquid tints over large areas. May also be used with light creams and for "tamping" powder into cosmetics.

TINTING BRUSHES

- e. 1/4" Round Tinting** – Length 8"
Catalog No: **701748**
- Fine-pointed, springy brush designed for depositing and distributing liquid pigments over confined areas. Gives precision linear and edge control. Bristles closely resemble human hair and may be used in restorative replacement of eyebrows and eyelashes.
- f. 3/4" Tinting** – Length 8 1/2"
Catalog No: **701961**
- Broad, flat-profile bristle for brushing liquid cosmetic pigments or light-bodied creams over extensive areas.
- g. 3/4" Feature Tinting** – Length 8 5/8"
Catalog No: **701896**
- Velvety-soft bristles in a flat, short-haired brush recommended for applying cosmetic tints to the mouth, eyes, and cheeks. A premium quality.

Cosmetics

Brushes – Stippling

Initial cost is seldom the primary determining factor in practical, economical brush selection. A cheap brush used for critical cosmetic procedures may prove to be the most expensive one you own. Brushes shown slightly smaller than actual size.

STIPLING BRUSHES

- a. 1" Coarse Stippling** – Length 6 1/4"
Catalog No.: **701904**
- Full-bodied, premium quality black bristle brush excellent for large area stippling to simulate coarser pores. May be used for basic application of Kalon Massage and Tinted Creams.
- b. 1/2" Stippling** – Length 7 1/2"
Catalog No.: **701805**
- Flat brush recommended for brushing on tints and stippling coarser pores around the mouth.
- c. 1" Fine Stippling** – Length 7 1/4"
Catalog No.: **701854**
- Fully-bristled. Excellent for stippling large areas. Produces a realistic simulation of fine, delicate pores on cosmetized surfaces.
- d. 1/2" Coarse Stippling** – Length 6 5/8"
Catalog No.: **701862**
- Standard grade flat white bristle brush. Recommended for stippling areas characterized by coarse pores or deep lines.
- e. 1/2" Fine Stippling** – Length 6 3/4"
Catalog No.: **701839**
- Superb stippling brush specially bristled to produce ultra-fine pore simulation on delicate facial tissue. Excellent for use on eyelids. A premium quality cosmetic instrument.
- f. 1 1/2" Wax Stippling** – Length 8 1/4"
Catalog No.: **701912**
- Premium quality in a full-bodied, firmly bristled brush designed for stippling heavy cosmetic creams, pigments and restorative waxes.

Cosmetics

Brushes – Maintenance Care

All brush measurements are stated in terms of the length across the bristle-end of the ferrule. That is, the measurement is taken at the point where the bristles unite with the metal sleeve. Brushes shown at actual size.

BLENDING, LINING, HIGHLIGHTING BRUSHES

a. 1/16" Fine Lining – Length 7 1/8"
Catalog No: **701888**

- Very responsive fine-pointed brush. Gives perfect control in the most delicate cosmetic applications. Springy, full-bristled with ample color-carrying capacity.

b. 1/2" Hairline Blending – Length 6"
Catalog No: **701722**

- Imported black bristle brush. Full-bodied, square cut and firm for blending in cosmetic creams of heavier consistency into the hairline and around eyes, temples. Has half-inch circular contact area.

c. 1" Hairline Blending – Length 8 3/4"
Catalog No: **701847**

- Long-handled, short-bristled brush for working cosmetics into hairline, treating prominent epidermal pores and facial wrinkles.

d. 3/16" Lip & Eye Lining – Length 4 5/8"
Catalog No: **701946**

- Short-handled brush gives precise marginal control for applying lip rouge or eye shadow. Plastic sleeve protects brush when not in use.

e. 1/8" Lip Lining – Length 7"
Catalog No: **701870**

- Chisel-point. Long-handled. Deposits sharp-edged line of color. Gives pin-point control for lip lining, shading, highlighting. Excellent for blending in narrow delineations, too.

f. 1/4" Lip Lining – Length 7 1/2"
Catalog No: **701813**

- Standard width chisel-point lip liner with fine bristles.

g. 1/2" Highlighting – Length 6 3/4"
Catalog No: **701771**

- Soft bristle for smooth, fully controlled highlighting. May be used to apply liquid tints and light cosmetic creams.

h. 1/4" Fine Detailing – Length 6 1/2"
Catalog No: **701730**

- Long-bristle for applying cosmetic tints in hard-to-reach, confined areas.

i. 1/8" Ultra-Fine Detailing – Length 6 1/4"
Catalog No: **701714**

- For especially delicate work, such as treating incisions with adhesive, fine modeling, etc.

Cosmetics

Brushes – Powder Dusting and Tamping

POWDER DUSTING & TAMPING BRUSHES

a. 7/16" Powder Dusting (Sm.)

Length 9 1/8"

Catalog No.: **701755**

- Soft bristles. A long handled, full bodied but smaller round-profile brush for controlled powdering and for "touch-up" powdering.

b. 3/4" Powder Dusting (Med.)

Length 5 1/2"

Catalog No.: **701797**

- Short-handled, full bristled in a medium sized dusting brush. Perfect for applying finishing talcums over waxed areas and for general powder-dusting uses.

c. 1" Utility Dusting – Length 9 3/4"

Catalog No.: **701995**

- Long-handled bristle brush with flat oval profile. Serves as a fine general purpose duster. May be used in all applications except on waxed surfaces.

d. 1" Powder Tamping – Length 7 7/8"

Catalog No.: **701953**

- Durable premium-grade flat brush especially recommended for use in powder "tamping" techniques.

Cosmetics

Cosmetician Kits

By far our best selling kit, the Complete Cosmetician is different from any other kit Dodge has available. It contains a combination of cosmetics from almost all the different lines we produce. Three of Dodge's expert cosmetic demonstrators selected each component of the kit based on their own preferences and each shade's popularity as indicated by sales volume.

COMPLETE COSMETICIAN KIT PERFORMANCE HIGHLIGHTS:

- You'll find just about everything you need to handle any case in the Complete Cosmetician Kit.
- Available in two different versions: with cosmetic shades most suitable to lighter complexion types, or shades best suited for darker skin types.
- The lighter and darker complexion kits include three 2 oz. Kalon Creams, six 1 oz. Kalon Pigments, eight 1/2 oz. Kalochromes, five 1 oz. Aquachromes, three 1 oz. Permas, two 2 oz. waxes, one 1 oz. Complexion Cream, two 4 oz. Kalon Powders, a 1/2 oz. Nail Varnish, two 1/2 oz. Soft Rouges, six brushes, a forcep, a spatula, and a pair of scissors.

Equipment

Original Dodge Embalming Machine

Finally an embalming machine you can depend on. And this one has all the features every machine should have but none do!

THE DODGE EMBALMING MACHINE PERFORMANCE HIGHLIGHTS:

- Inject at low pressures, if that's your preference, or use high pressures to overcome blockages.
- Built-in rate of flow meter.
- Choose between pulsation or continuous flow.
- Completely stainless steel cabinet. Dodge quality components and construction. And a Dodge warranty.
- Pump is industrial duty with magnetic drive.
- Quick release injection tubing. Easy to detach, drain, coil, and store in tank. Or use hose clip on front of machine.
- Auto-mix cycle mixes your solution without even requiring hose to be attached.
- Recessed carrying handles allow the machine to be moved more easily.
- Hose complete with adapter and stopcock to accommodate threaded or luer-lock arterial tubes.
- Easy access to in-line filter.
- Convenient hose holder cleats on side of machine.

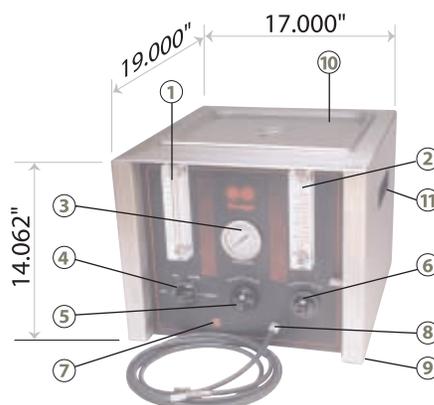

ORDERING DATA:

Equipment

Lower Body Positioner

LOWER BODY POSITIONER

PERFORMANCE HIGHLIGHTS:

- Helps the operator during the embalming process, as well as during dressing.
- Rugged – made of high impact plastic.
- Minimizes points of contact between body and table.
- Both stay cleaner since wastes flow freely to the drain.
- Lightweight. Easily sanitized.

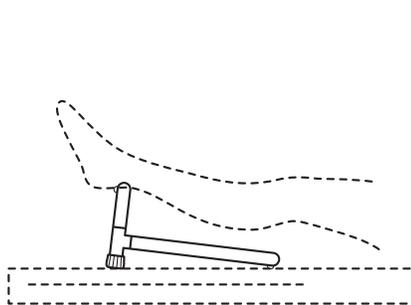

ORDERING DATA:

Lower Body Positioner

Catalog No: **910150**

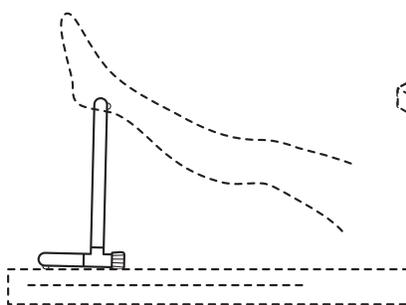

Positions

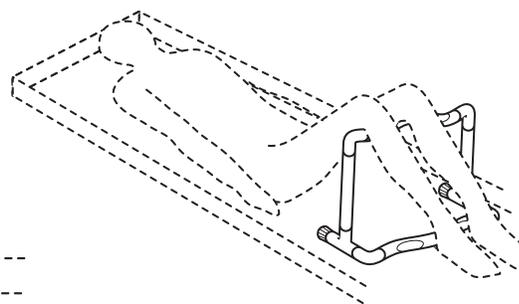

Position 1

Position 1 is for use when embalming a normal case, or as a support during dressing.

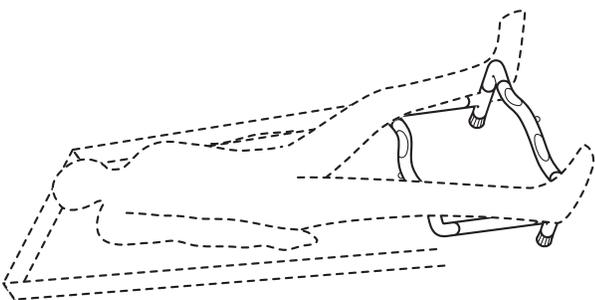

Position 2

Position 2 is useful when elevation of lower extremities is desired (for edema, etc.)

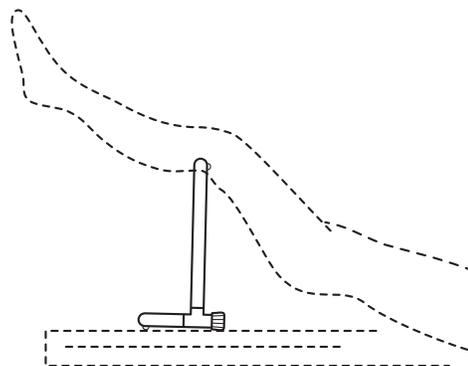

Position 3

Position 3 may be used to stabilize hard-to-position remains – or to permit extra-tall bodies to be casketed.

Position 4

Position 4 is helpful when packing orifices.

Position 5

Position 5 can be used after injection to elevate the lower back and buttocks for cleaning or treatment of ulcers or injuries.

Equipment

Maxx Mortuary Cots

a.

a. 24 MAXX HEAVY DUTY COT
PERFORMANCE HIGHLIGHTS:

- With its unique, independent-leg design, wider surface, and oversize wheels, the 24 Maxx allows you to transport bodies weighing up to 1,000 lbs.
- The cot allows for easy maneuverability in tight areas and down stairs.
- Has a powder-coated frame and stylish design.

ORDERING DATA:

- *Both cots are compatible with standard 335 pouch and 335 oversize Maxx pouches.*

b.

b. MINI MAXX COT
PERFORMANCE HIGHLIGHTS:

- The 24 Mini Maxx has all of the features of the 24 Maxx in a narrow package.
- It has the same 1,000 lb. capacity, independent legs with multi-level adjustment, and 6 inch wheels.
- The narrow bed gives this cot increased maneuverability and allows two cots to be placed side by side in the rear of most vehicles.

ORDERING DATA:

b. Mini Maxx Cot
Catalog No.: **041039**

Equipment

Mortuary Cots

a. MODEL 24 MORTUARY COT PERFORMANCE HIGHLIGHTS:

- Allows one person to perform solo retrieval.
- Can be raised and lowered without assuming full weight of cot and body.
- Legs unfold and lock automatically when loading cot.
- Legs fold back up when loaded into vehicle.
- Comes with 1" burgundy mattress and two 5-foot burgundy straps.
- Weight capacity 400 lbs.

Note:

Model 24-H available for high-floor coaches.

PERFORMANCE HIGHLIGHTS:

- Measure empty car from load point to level ground – if 23" - 27", use No. 24; if over 27", use 24-H.
- 24-H is not higher overall – it simply allows the load end to rise higher. Since the operator end does not, the cot is tilted in this position.

Extra Large – 5/16" O.D. Catalog No.: **707133**

Y's

d. DOUBLE INJECTOR ASSEMBLY PERFORMANCE HIGHLIGHTS:

- One No. 709303 metal Y, two 6" pieces of No. 761858 tubing, with two No. 708701 arterial tubes.

ORDERING DATA:

d. Double Injector Assembly
Catalog No.: **703553**

**e. VALVELESS
SLIP HUB Y**
Catalog No.: **709311**

f. Y FITTING WITH STOPCOCKS
Catalog No.: **709303**

Not pictured:

LEATHER ARTERIAL TUBE WASHERS

- Pack of 12.
Catalog No.: **709352**

Instruments

Cavity Injector

a. CAVITY CHEMICAL INJECTOR PERFORMANCE HIGHLIGHTS:

- An efficient way to inject cavity chemical directly from the bottle.
- Flow may be stopped by placing finger over the air vent when changing position of the trocar.

a.

ORDERING DATA:

a. Cavity Chemical Injectors

Injector with 3" Tube
Catalog No: **703575**

Injector with 5" Tube
Catalog No: **703577**

Injector with 7" Tube
Catalog No: **703579**

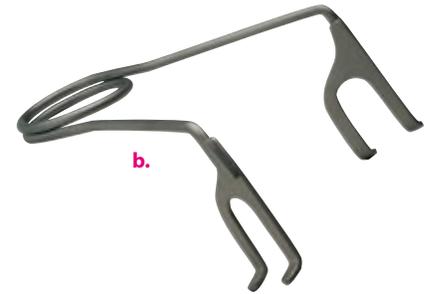

Spreader

b. WHITNEY INCISION SPREADER PERFORMANCE HIGHLIGHTS:

- Designed expressly for embalming.
- Angular design permits insertion without obstructing drain or arterial tubes.

ORDERING DATA:

b. Whitney Incision Spreader
Catalog No.: **703967**

b.

Aspirating Tubes

d.

d. REGULAR POST-MORTEM ASPIRATOR PERFORMANCE HIGHLIGHTS:

- Gets into hard-to-reach areas; aspirates thoroughly.

ORDERING DATA:

d. Regular Post-Mortem Aspirator
Catalog No: **701169**

e.

e. NON-CLOGGING POST ASPIRATOR PERFORMANCE HIGHLIGHTS:

- Drains cavities completely.
- The head can be removed for thorough cleaning.

ORDERING DATA:

e. Non-Clogging Post Aspirator
Catalog No: **701151**

f.

f. NASAL TUBE PERFORMANCE HIGHLIGHTS:

- Essential for purging cases.
- Evacuates liquid from nasal cavities and the throat.

ORDERING DATA:

f. Nasal Tube
Catalog No: **708800**

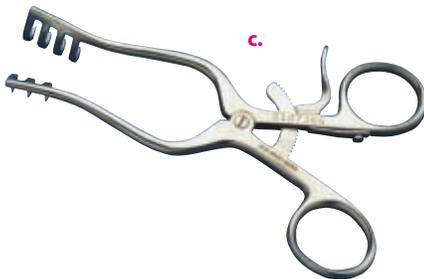

Retractor

c. ADJUSTABLE RETRACTOR PERFORMANCE HIGHLIGHTS:

- Variable tension.
- Can be used where too much tension on the incision would cause stretching.

ORDERING DATA:

c. Adjustable Retractor
Catalog No: **703978**

c.

Instruments

Drain Tubes

a. MULTI-SLOT DRAIN TUBES

- Working length approximately 7".
- Highly recommended.
- The multiple slots aid in achieving a superior volume of drainage.

Small – 1/4" O.D. – Catalog No.: **707543**
 Medium – 5/16" O.D. – Catalog No.: **707542**

Large – 3/8" O.D. – Catalog No.: **707541**
 X Large – 7/16" O.D. – Catalog No.: **707540**

O.D. = Outside Diameter

b. AXILLARY TUBES

- Working length approximately 9".

Small – 3/16" O.D. – Catalog No.: **707377**
 Medium – 1/4" O.D. – Catalog No.: **707375**

Large – 5/16" O.D. – Catalog No.: **707373**
 X Large – 3/8" O.D. – Catalog No.: **707371**

c. JUGULAR TUBES

- In 4 working lengths and diameters.
- Working length approximately 5".

Small – 3/16" O.D. – 4" long –
 Catalog No.: **707450**
 Medium – 1/4" O.D. – 4 1/2" Long
 Catalog No.: **707447**

Large – 5/16" O.D. – 5" Long
 Catalog No.: **707444**

X Large – 3/8" O.D. – 6" Long
 Catalog No.: **707441**

d. ECCENTRIC PROBE JUGULAR TUBES

- Working length approximately 7".

Small – 1/4" O.D. – Catalog No.: **707539**
 Medium – 5/16" O.D. – Catalog No.: **707521**

Large – 3/8" O.D. – Catalog No.: **707513**
 X Large – 7/16" O.D. – Catalog No.: **707505**

e. INFANT TUBE

- Working length approximately 5".

1/8" O.D. – Catalog No.: **707208**

f. CURVED STANDARD DRAIN TUBE

- Working length approximately 8 1/2".

Small – 3/16" O.D. – Catalog No.: **708636**
 Large – 1/4" O.D. – Catalog No.: **708628**

g. ILIAC DRAIN TUBE

- Working length 14".

Small – 5/16" O.D. – Catalog No.: **709063**
 Large – 3/8" O.D. – Catalog No.: **709071**

- Working length 20".

Small – 5/16" O.D. – Catalog No.: **708966**

Not pictured:

DRAIN TUBE PACKINGS

- Package of three – Catalog No.: **709360**

Instruments

Drain Tubes & Other Drainage Devices

a. FEMORAL TUBE
PERFORMANCE HIGHLIGHTS:

- Flexible rubber.
- Four sizes.
- All tubes 30" long.

ORDERING DATA:

a. Femoral Tube

Small – 5/16" O.D.

Catalog No.: **702415**

Medium – 11/32" O.D.

Catalog No.: **702431**

Large – 3/8" O.D.

Catalog No.: **702449**

Extra Large – 13/32" O.D.

Catalog No.: **702456**

b. Pump Only

Catalog No.: **702316**

Complete Set (4 tubes and pump)

Catalog No.: **702290**

c.

c. FAIRLESS DRAIN AID
PERFORMANCE HIGHLIGHTS:

- Dilates the vein.
- Thin stainless steel wire occupies minimum space within the vessel.
- Overall length 10", working length 7 1/2".

ORDERING DATA:

c. Fairless Drain Aid

Catalog No.: **709147**

d.

d. DRAINAGE FORCEP
PERFORMANCE HIGHLIGHTS:

- Practical drainage stimulator – particularly useful in the removal of heavy, clotted blood.
- Expands the vein to maximum diameter – yet occupies little space within the vessel itself.
- Stainless steel.
- Working length 7".

ORDERING DATA:

d. Drainage Forcep

Catalog No.: **702837**

Instruments

Forceps

a. 6 1/2" FORCEPS/DISSECTOR
PERFORMANCE HIGHLIGHTS:

- One of the most versatile forceps ever designed for embalming use.
- Ideal for delicate eye and restorative work.
- Has multi-purpose dissector handle.

ORDERING DATA:

a. 6 1/2" Forcep/Dissector
Catalog No.: **702597**

b. 8" FORCEP
PERFORMANCE HIGHLIGHTS:

- Companion instrument to the 6 1/2" forcep.
- Made for more rugged usage in autopsy operations, mouth and nostril cleansing.

ORDERING DATA:

b. 8" Forcep
Catalog No.: **702654**

c. STRAIGHT FORCEP
PERFORMANCE HIGHLIGHTS:

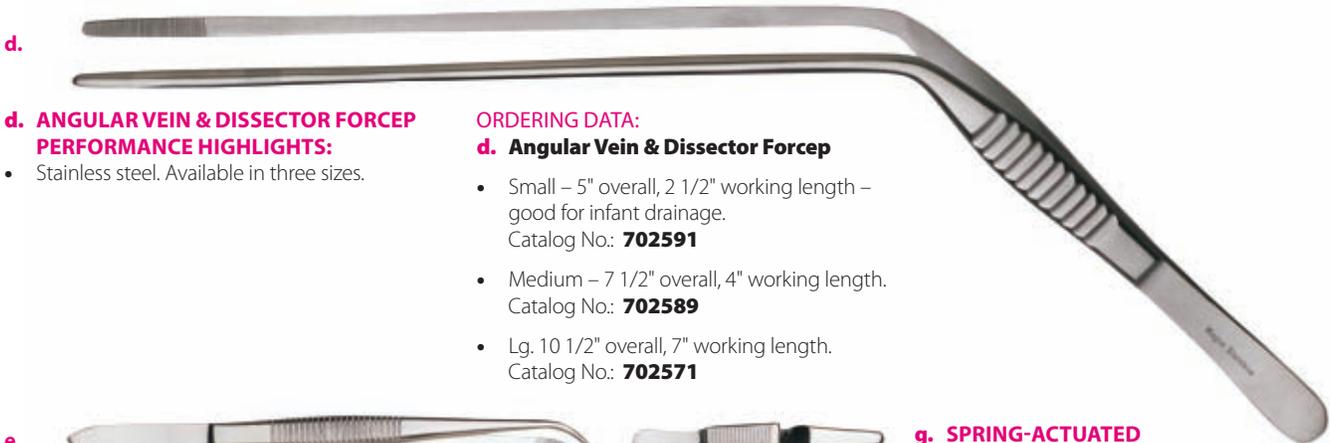

- Stainless spring steel.
- Available in 6 lengths.

ORDERING DATA:

c. Straight Forcep

- 12" Length – Catalog No.: **702670**
- 10" Length – Catalog No.: **702688**
- 8" Length – Catalog No.: **702696**

- 5 1/2" Length – Catalog No.: **702704**
- 5" Length – Catalog No.: **702720**
- 4 1/2" Length – Catalog No.: **702738**

d. ANGULAR VEIN & DISSECTOR FORCEP
PERFORMANCE HIGHLIGHTS:

- Stainless steel. Available in three sizes.

ORDERING DATA:

d. Angular Vein & Dissector Forcep

- Small – 5" overall, 2 1/2" working length – good for infant drainage. Catalog No.: **702591**
- Medium – 7 1/2" overall, 4" working length. Catalog No.: **702589**
- Lg. 10 1/2" overall, 7" working length. Catalog No.: **702571**

e. FINE POINT CURVED ARTERIAL FORCEP
PERFORMANCE HIGHLIGHTS:

- Stainless steel.
- 4 1/2" overall length.

ORDERING DATA:

e. FINE POINT CURVED ARTERIAL FORCEP
Catalog No.: **702753**

g.

g. SPRING-ACTUATED ARTERY HOLDER
PERFORMANCE HIGHLIGHTS:

- Stainless steel.
- Straight jaw, self-closing.

ORDERING DATA:

g. Spring-Actuated Artery Holder
Catalog No.: **702613**

f. FINE POINT CURVED ARTERIAL FORCEP
PERFORMANCE HIGHLIGHTS:

- Stainless steel.
- 5 1/2" overall length.

ORDERING DATA:

f. Fine Point Curved Arterial Forcep
Catalog No.: **702779**

h.

h. SPRING-ACTUATED ARTERY HOLDER
PERFORMANCE HIGHLIGHTS:

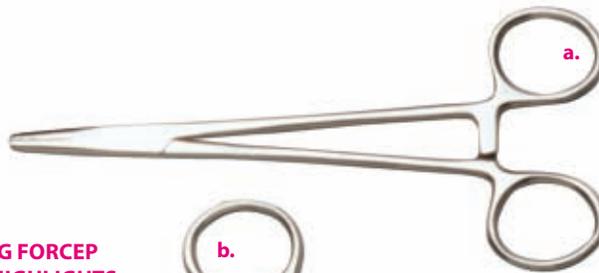

- Stainless steel.
- Curved jaw, self-closing.

ORDERING DATA:

h. Spring-Actuated Artery Holder
Catalog No.: **702621**

Instruments

Forceps

a. NEEDLE FORCEP
PERFORMANCE HIGHLIGHTS:

- 6 1/4" stainless steel.

ORDERING DATA:

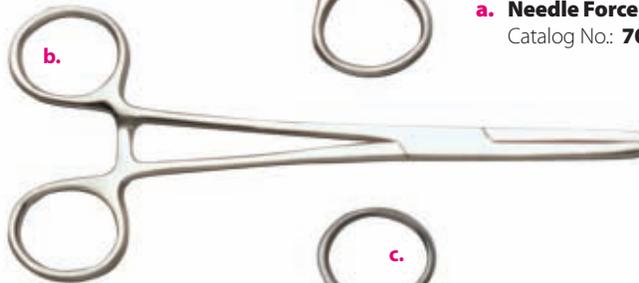

a. Needle Forcep
Catalog No.: **702936**

b. TUBE-OCCLUDING FORCEP
PERFORMANCE HIGHLIGHTS:

- 7-inch stainless steel. Straight jaw, heavy point.

ORDERING DATA:

b. Tube-Occluding Forcep
Catalog No.: **702944**

c. GATHERING FORCEP
PERFORMANCE HIGHLIGHTS:

- 5 1/4" stainless steel.

ORDERING DATA:

c. Gathering forcep
Catalog No.: **702902**

d. NEEDLE FORCEP
PERFORMANCE HIGHLIGHTS:

- 5 1/2" lockable spring handles.

ORDERING DATA:

d. Needle Forcep
Catalog No.: **702928**

e. FIXATION FORCEP
PERFORMANCE HIGHLIGHTS:

- Large hole is 1/4" diameter.
- Small hole is 1/8" diameter.

ORDERING DATA:

e. Fixation Forcep
Catalog No.: **702555**

f. FIXATION FORCEP
PERFORMANCE HIGHLIGHTS:

- 3 hole stainless steel.
- The holes are 3/32", 3/16", and 1/8" in diameter.

ORDERING DATA:

f. Fixation Forcep
Catalog No.: **702894**

g. PACKING FORCEP
PERFORMANCE HIGHLIGHTS:

- 10" stainless steel. Curved.

ORDERING DATA:

g. Packing forcep
Catalog No.: **702886**

Instruments

Hemostats

a. HEMOSTAT
PERFORMANCE HIGHLIGHTS:

- 5 1/2" fine point.

ORDERING DATA:

- a. Hemostat**
Catalog No.: **702829**

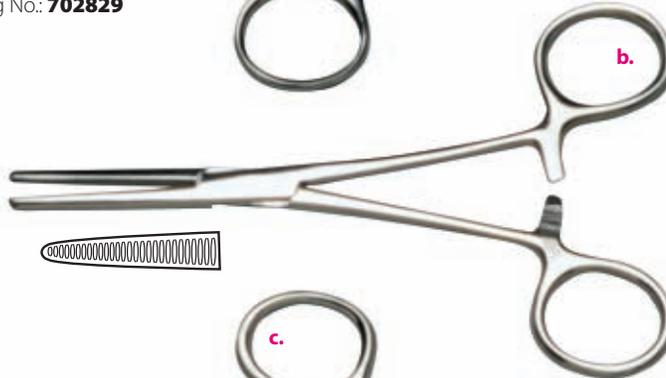

b. HEMOSTAT
PERFORMANCE HIGHLIGHTS:

- 5 1/2" medium point.

ORDERING DATA:

- b. Hemostat**
Catalog No.: **702803**

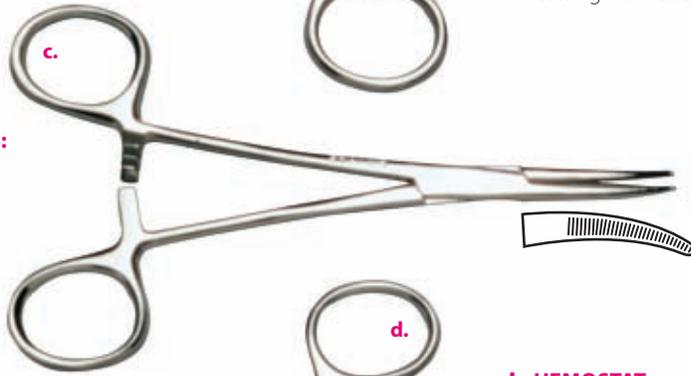

c. HEMOSTAT
PERFORMANCE HIGHLIGHTS:

- 5 1/2" curved medium point.

ORDERING DATA:

- c. Hemostat**
Catalog No.: **702845**

d. HEMOSTAT
PERFORMANCE HIGHLIGHTS:

- 5" curved fine point.

ORDERING DATA:

- d. Hemostat**
Catalog No.: **702878**

e. HEMOSTAT
PERFORMANCE HIGHLIGHTS:

- 8" curved jaw, heavy point.

ORDERING DATA:

- e. Hemostat**
Catalog No.: **702977**

f. HEMOSTAT
PERFORMANCE HIGHLIGHTS:

- 8" straight jaw, heavy point.

ORDERING DATA:

- f. Hemostat**
Catalog No.: **702969**

Instruments

Needle Injector

INJECTOR NEEDLE DRIVER PERFORMANCE HIGHLIGHTS:

- Completely comfortable grip.
- Won't make your palm sore.
- Greater accuracy in driving pins.
- Adjustable drive force mechanism – use greater force when necessary, and lesser power when conditions warrant.
- Requires less hand strength than the original 2-ring model.

ORDERING DATA:

Injector Needle Driver

Catalog No: **703479**

Injector Needles

REGULAR WIRE AND BRASS WIRE INJECTOR NEEDLES

PERFORMANCE HIGHLIGHTS:

- Available in regular and brass wire.
- One gross.

ORDERING DATA:

Injector Needles, regular wire

Catalog No: **820019**

Injector Needles, brass wire.

Catalog No: **820030**

Instruments

Needle Injectors

a.

a. STAINLESS NEEDLE INJECTOR
PERFORMANCE HIGHLIGHTS:

- Much easier to squeeze than the older, chromed model.
- More durable.
- Larger, more comfortable finger rings.

ORDERING DATA:

a. Stainless Needle Injector
Catalog No.: **703489**

b.

b. NEEDLE INJECTOR HANDLE
PERFORMANCE HIGHLIGHTS:

- Makes life easier for people with small hands.

ORDERING DATA:

b. Needle Injector Handle
Catalog No.: **703496**

(Stainless Steel Needle Injector Sold Separately.)

c.

c. NEEDLE INJECTOR RETROFIT KIT
PERFORMANCE HIGHLIGHTS:

- Easily converts older Injector Needle Guns to a comfortable full hand squeeze grip.
- Maximum comfort in the palm of the hand.
- Adjusting sleeve allows user to decrease driving force if desired for sensitive cases.

ORDERING DATA:

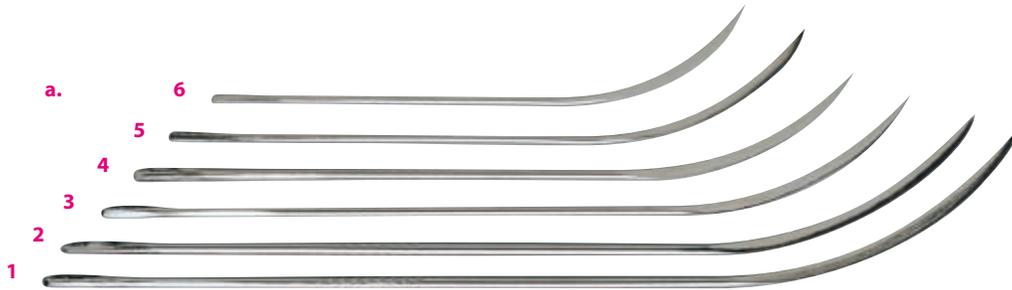

c. Needle Injector Retrofit Kit
Catalog No.: **035000**

(Stainless Steel Needle Injector Sold Separately.)

Instruments

Stopcocks and Adapters

a. STOPCOCK

- Chrome on solid brass.
 - Internal thread for male threaded adapter.
 - Can be used for Dodge Embalming machine High Pressure "Y".
- Catalog No.: **924320**

b. STOPCOCK

- Chrome on solid brass.
 - Standard internal thread and slip hub line apertures.
- Catalog No.: **704858**

c. STOPCOCK

- Luer-lok to slip hub.
 - Made to fit luer-lok arterial tubes as well as hypo needles and hypo trocars.
- Catalog No.: **704866**

d. STOPCOCK

- Fits small bore tubing.
 - Luer-lok adapter (on right above) can be removed for use with threaded arterial tubes.
 - For use with high pressure tubing.
- Catalog No.: **704841**

e. STOPCOCK

- Black, hard rubber.
 - Slip hub and internal thread openings.
- Catalog No.: **704845**

f. PLASTIC CLAMP

- Positive lock cut-off clamp.
 - Stops or starts tube flow at the touch of a finger.
 - For 3/8" O.D. or smaller.
- Catalog No.: **702183**

g. ADAPTER

- Adapts No. 706309 and 706317 trocars to No. 709253 control valve handle.
- Catalog No.: **709261**

h. ADAPTER

- Converts male threaded stopcock to luer-lok fittings.
- Catalog No.: **701060**

i. ADAPTER

- Female threaded adapter.
 - Converts male threaded arterial tubes to slip hub.
- Catalog No.: **701051**

j. ADAPTER

- Double male threaded adapter.
- Catalog No.: **701055**

k. ADAPTER

- Converts female threaded stopcock to luer-lok fitting.
- Catalog No.: **701045**

l. ADAPTER

- Converts female threaded stopcock to slip hub.
- Catalog No.: **701052**

Instruments

Trocars

a.

a. DYNAMIC TROCAR PERFORMANCE HIGHLIGHTS:

- Working lengths of 16" and 19" are available in both 3/8" and 5/16" O.D.
- Unique two-piece point eliminates the need for an irrigated barrel.
- Large sight glass permits constant observation of aspirated material. Sold without cleaning rod.

ORDERING DATA:

Replacement glass with washers for dynamic trocars:
Catalog No.: **706796**

- a. 16" x 3/8" Trocar**
Catalog No.: **706001**
- 19" x 3/8" Trocar**
Catalog No.: **706002**
- 2-pc. Point 3/8"**
Catalog No.: **706762**
- 6 pk. of tips only (3/8")**
Catalog No.: **706770**
- 16" x 5/16" Trocar**
Catalog No.: **706003**
- 19" x 5/16" Trocar**
Catalog No.: **706004**
- 2-pc. Point 5/16"**
Catalog No.: **706820**
- 6 pk. of tips only (5/16")**
Catalog No.: **706838**

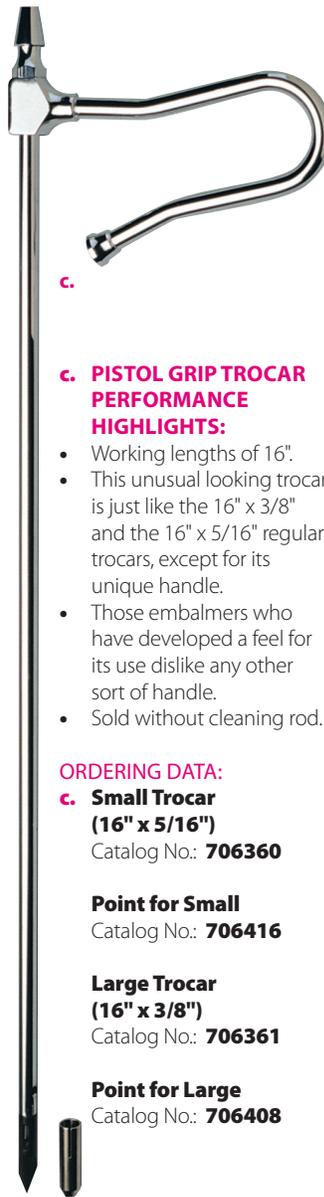

b.

b. STANDARD TROCAR PERFORMANCE HIGHLIGHTS:

- Available in three sizes: Large (16" working length, 3/8" O.D.), Medium (14" x 5/16"), and Small (12" x 1/4"). Sold without cleaning rod.

ORDERING DATA:

- b. Small Trocar (12" x 1/4")**

Catalog No.: **706077**
- Point for Large**
Catalog No.: **706101**

c.

c. PISTOL GRIP TROCAR PERFORMANCE HIGHLIGHTS:

- Working lengths of 16".
- This unusual looking trocar is just like the 16" x 3/8" and the 16" x 5/16" regular trocars, except for its unique handle.
- Those embalmers who have developed a feel for its use dislike any other sort of handle.
- Sold without cleaning rod.

ORDERING DATA:

- c. Small Trocar (16" x 5/16")**
Catalog No.: **706360**
- Point for Small**
Catalog No.: **706416**
- Large Trocar (16" x 3/8")**
Catalog No.: **706361**
- Point for Large**
Catalog No.: **706408**

d.

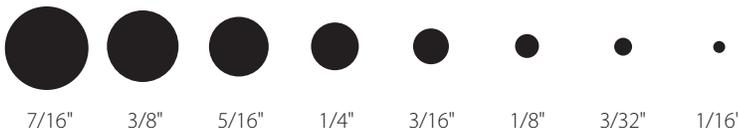

d. TROCAR CLEANING BRUSH PERFORMANCE HIGHLIGHTS:

- 21" long, cleans tubes up to 7/16" in diameter.
- The bristle portion is 1/2" in diameter and 3" long.

ORDERING DATA:

- d. 21" Brush**
Catalog No.: **706990**

DIAMETERS CHART

Instruments

Trocars

a.

a. VISIBLE FLOW TROCAR PERFORMANCE HIGHLIGHTS:

- Working length 17 1/2". Outside diameter 5/16".
- Available irrigated (with holes) or blind (without holes).
- Visible flow feature eliminates guesswork. Reveals nature and consistency of aspirated material as it passes through replaceable Pyrex glass window in trocar handle.
- The same replacement sight glass and washer set and the same trocar point fit both the irrigated and the blind versions of this trocar.
- Sold without cleaning rod.

ORDERING DATA:

- a. Irrigated Trocar**
Catalog No.: **706242**
- Glass and Washers**
Catalog No.: **706267**
- Blind Trocar**
Catalog No.: **706259**
- Point for either**
Catalog No.: **706234**

b.

b. CONVENTIONAL TROCAR PERFORMANCE HIGHLIGHTS:

- 17 1/2" barrel, 5/16" outside diameter.
- Non-slip handle.
- The same trocar point fits both the blind and irrigated shafts.
- Sold without cleaning rod.

ORDERING DATA:

- b. Irrigated Trocar**
Catalog No.: **706200**
- Blind Trocar**
Catalog No.: **706218**
- Point for either**
Catalog No.: **706234**

c.

c. TROCAR PERFORMANCE HIGHLIGHTS:

- Available in three working lengths (16", 18", 20"), and each of these lengths are available in a choice of two different outside diameters (3/8", 5/16").
- The 3/8" diameter trocars come with one pair of holes in the shaft.
- The 5/16" trocars have three pairs of holes in the shaft.
- Sold with cleaning rod.

ORDERING DATA:

- c. Trocar 16" x 3/8"**
Catalog No.: **706016**

c. DISPOSABLE TROCAR
PERFORMANCE
HIGHLIGHTS:

- Non-plated shaft with plastic handle.
- Working length of 17".
- Perfect for use on contagious bodies.

ORDERING DATA:

c. Disposable Trocar
Catalog No.: **706000**

Please Note: This Disposable Trocar is also available in the Dodge Hi-Risk Disposable Instrument Kit (see page 104).

a., b. COMFORT GRIP TROCAR™ **PERFORMANCE HIGHLIGHTS:**

- Has uniquely machined handle for easier use.
- Offers an alternative to traditional trocars.
- First truly ergonomic grip on the market.
- Light-weight plastic grip sits comfortably in the palm of the hand.
- Entire palm of the hand is used to grip the trocar unlike standard grips where the fingers must be gripped tightly to securely hold the trocar.
- Shape of the Comfort Grip is engineered so the straight line force of the shaft centers on the strongest part of the hand.
- Greatly reduces hand fatigue.
- Features 3 pairs of holes and standard 4 sided double slotted trocar point.
- Comfort Grip Trocars™ are available with a slip hub connection.

Instruments

Quick Disconnects for Trocars

SIDE BUTTON QUICK DISCONNECT PERFORMANCE HIGHLIGHTS:

- Quick Disconnects are specifically designed for use with Dodge Trocars.
- Stainless Steel and Delrin construction, flow-through design with no internal restrictions.
- Easy to clean with no internal parts to clog or corrode.
- Easy to actuate Side Button accommodates single hand operation for easy release or connecting.
- Special adapters available for most applications.
- Sold exclusively through The Dodge Company.

Instruments

Hand Pump

a. HAND PUMP
PERFORMANCE HIGHLIGHTS:

- Made entirely of metal.
- Two ounce capacity.

ORDERING DATA:

a. Hand Pump
Catalog No.: **703793**

Gravity Injector

b. GRAVITY INJECTOR
PERFORMANCE HIGHLIGHTS:

- One gallon percolator made of Nalgene (laboratory plastic).
- Metal bale.
- Use with latex tubing, catalog no. 761833 (Valentine tube with tapered end no longer available).

ORDERING DATA:

b. Gravity Injector
Catalog No.: **921726**

Note: Old glass gravity injectors can be connected to catalog no. 761833 tubing with two adapters (catalog no. 701011 and catalog no. 701094).

Dodge Bulb Syringe

c. DODGE BULB SYRINGE
PERFORMANCE HIGHLIGHTS:

- Tubing is 1/4" I.D., 1/2" O.D.
- Tubing length on each side of the bulb is 3 feet (tubing sold separately).

ORDERING DATA:

c. Dodge Bulb Syringe
Catalog No.: **705392**

Tissue Reducer

d. TISSUE REDUCER
PERFORMANCE HIGHLIGHTS:

- Reduces swelling, smoothes wrinkles.
- Recreates facial lines.

ORDERING DATA:

d. Tissue Reducer
Catalog No.: **705608**

Rubber Water Collar

e. RUBBER WATER COLLAR
PERFORMANCE HIGHLIGHTS:

- A necessary device in your prep room given the number of swollen necks encountered today.
- Made of heavy duty rubber to withstand repeated use.
- May be filled with water or sand.
- Use following arterial injection for approximately 25 minutes depending upon severity of swelling.
- Wrinkles, if any, should be removed with a tissue reducer.

ORDERING DATA:

e. Rubber Water Collar
Catalog No.: **702084**

Pneumatic Collar

f. PNEUMATIC COLLAR
PERFORMANCE HIGHLIGHTS:

- Reduces neck swelling with variable air pressure.
- Adjustable with either snap-fasteners or degree of inflation.

ORDERING DATA:

f. Pneumatic Collar
Catalog No.: **702076**

Instruments

Embalmer's Kit

a. EMBALMER'S KIT PERFORMANCE HIGHLIGHTS:

- A comprehensive collection of instruments.
- Perfect for an embalmer starting work at a new funeral home.
- Also for the funeral home owner who finds it's time to replace some older instruments.
- Naturally, the kit is an excellent graduation present for a mortuary science student.

Pouches

a. WHITE CREMATION POUCH PERFORMANCE HIGHLIGHTS:

- This pouch is made of an 8 mil plastic material that emits no pollutants when burned.
- Available only in adult size.
- 40" x 96".

ORDERING DATA:

- a. **White Cremation Pouch**
Catalog No.: **755155**

Not pictured:

b. BLACK 6-HANDLE POUCH PERFORMANCE HIGHLIGHTS:

- Looks very much the same as the 10-Handle Pouch, except for four less handles.
- An economy version of the heavy-duty model.
- Made of heavier (20 mil) vinyl than the Heavy Duty Pouch, because it lacks the double-layer construction and its loop handles end where they attach at the seams.
- Not recommended for unusually heavy bodies.
- 36" x 87".

ORDERING DATA:

- b. **Black 6-Handle Pouch**
Catalog No.: **755072**

Not pictured:

d. DISPOSABLE BURIAL POUCHES PERFORMANCE HIGHLIGHTS:

- Inexpensive disposable burial pouch made of heavy-gauge (4 mil) opaque white plastic.
- Electronically sealed seams.
- Soft, pliable, economical.
- Adjusts readily to every body size.
- C-shaped zipper closure design simplifies body insertion.
- Pouch represents the standard for our field.
- Far more sold than any other.

ORDERING DATA:

- d. **Disposable Burial Pouches**
Adult size
 - 36" x 86"Catalog No.: **755132**
Child size
 - 36" x 60"Catalog No.: **755134**

c. BLACK 10-HANDLE HEAVY DUTY DISASTER POUCH PERFORMANCE HIGHLIGHTS:

- Made of heavy gauge (15 mil), high tensile strength opaque black nylon-reinforced Herculite vinyl.
- Material is specially formulated so that it will not crack and will remain pliable to -30° F.
- Liner sheet prevents leakage where straps attach to the bottom, and adds the strength of a double layer.
- C-shaped zipper for fast, easy insertion and removal of remains.
- Fitted with ten sturdy handles.
- Nylon handle straps run the full length and width of the pouch.
- Will support even the heaviest body.
- 39" x 89".

ORDERING DATA:

- c. **Black 10-Handle Heavy Duty Disaster Pouch**
Catalog No.: **755067**

Also available:

e. BODY AND CASKET COVER PERFORMANCE HIGHLIGHTS:

- Used primarily on cots during removals and at the crematorium.
- Non-chlorinated plastic, burns clean.
- Less expensive than a pouch.
- Made of white opaque plastic 4 mils thick.
- **Use:** Place the cover over a cot, place the body on it, and then pull the sides up around the body. Now strap covered body onto cot.
- When fully open as a body cover, the widest side to side measurement is 64" across.
- Sold in 75 lb. rolls of 70 covers.
- 64" x 115".

ORDERING DATA:

- e. **Body and Casket Cover**
Catalog No.: **751475**

Supplies

Plastic Undergarments

All these garments represent the finest grade of plastic craftsmanship and materials. Thickness exceeds 4 mils. Full-cut from tough, high tensile strength vinyl with impervious heat-sealed seams and strong elastic bands. Waterproof and easy fitting. Resistant to embalming chemicals and body fluids. Individually packed in poly envelopes for long storage life.

Supplies

Cut-Resistant (Kevlar) Gloves

NOTE: In choosing from the following gloves, you should be aware that a cut (from a scalpel blade) is different from a puncture (from a hypo needle). You should also know that Kevlar gloves will not stand up to chemical disinfectants. This means you must either use another pair of gloves over your Kevlar ones, or plan to dispose of the Kevlar after one use. Some Kevlar gloves are rather expensive to treat as disposables.

a. DISPOSABLE KEVLAR GLOVES
PERFORMANCE HIGHLIGHTS:

- Not puncture resistant.
- Ease of over-gloving: good.
- Cost appropriate for use as disposable.

ORDERING DATA:

a. Medium Disposable Kevlar Gloves
Catalog No.: **751574**

Large Disposable Kevlar Gloves
Catalog No.: **751576**

Extra Large Disposable Kevlar Gloves
Catalog No.: **751578**

b. TUFFCOAT KEVLAR GLOVES

- Includes directions and an explanation of OSHA law written specifically for funeral directors.

ORDERING DATA:

- d. Formaldehyde Monitor**
Catalog No.: **753020**

Supplies

Personal Protective Equipment

PERFORMANCE HIGHLIGHTS:

- **Light Barrier:**

- Light barrier garments are made of blue fabric.
- They are the most comfortable, breathable garments in the line, but have the least splash protection.
- A good choice under a plastic apron.

- **Medium Barrier:**

- Medium barrier garments strike a balance between protection and comfort.
- Repels moderate splashes.
- Add a plastic apron for greater protection.
- This material is always produced in white.

- **Best Barrier:**

- Best barrier material, available in yellow.
- High-level protection against blood.
- Resists chemical splashes. Inner layer of fibers wicks away perspiration; feels cooler than plastic alone.

REUSABLE PROTECTIVE GARMENTS

a. COTTON WRAP-AROUND GOWN

PERFORMANCE HIGHLIGHTS:

- Knee length and full cut.
- Made of durable white Sanforized cotton for shrink-free laundering.
- Full length sleeves, side and breast patch pockets.
- Truly comfortable.
- Not available in extra-large.

ORDERING DATA:

a. Cotton Wrap-around Gown

Small	Catalog No.: 921346
Medium	Catalog No.: 921338
Large	Catalog No.: 921320

b. WASHABLE BARRIER GOWN

PERFORMANCE HIGHLIGHTS:

- Entire garment is made of single-ply fluid resistant barrier fabric.
- Double-needle construction.
- Ties at back of neck and waist.
- White stockinette cuffs.
- Can be washed and reused a minimum of 100 times.
- Unisize (large) is 48 1/2" long and 60" wide.
- Also available in small/medium size (42 1/2" long and 55 1/2" wide).

ORDERING DATA:

b. Washable Barrier Gown

Unisize (Large)	Catalog No.: 921350
Small/Medium	Catalog No.: 921351

DISPOSABLE POLYETHYLENE GARMENTS

Polyethylene is a thin plastic material which is economical...but with good splash or fluid resistance (also called "barrier protection"). Poly does not breathe, so a gown of poly, in particular, can be very warm. This is a lesser problem with poly aprons.

c. DISPOSABLE POLY APRONS

PERFORMANCE HIGHLIGHTS:

- Low cost aprons which dispense from a convenient service pack. Made of three gauge embossed white polyethylene.
- Useful combined with more comfortable, full-coverage garments like the light barrier garments or non-barrier cotton wrap-around gown, because it adds a splash resistant front to these breathable larger garments.
- Box of 100 aprons.

ORDERING DATA:

c. Disposable Poly Aprons

Catalog No.: **755041**

d. DISPOSABLE POLY GOWNS

PERFORMANCE HIGHLIGHTS:

- Offers splash resistant barrier protection at an extremely economical price.
- Cuff design includes thumb loops which prevents leakage between glove and sleeve.
- Open back for cool comfort.
- Slips over the head; ties in back at the waist.
- Box of 15 aprons.

ORDERING DATA:

d. Disposable Poly Gowns

Regular	Catalog No.: 755043
Extra Large	Catalog No.: 755044

BARRIER PROTECTION GARMENTS

These Barrier Protection Garments provide varying degrees of splash or fluid resistance. Just like rain gear, better protection means less breathability and comfort...and better comfort means less protection.

- a. SANAPRON APRON**
PERFORMANCE HIGHLIGHTS:
- Offers medium barrier protection.

ORDERING DATA:

- a. Sanapron Apron**
Catalog No.: **750265**

- b. ECONOMY LABCOAT**
PERFORMANCE HIGHLIGHTS:
- With medium barrier protection.
 - No cuffs, light-weight, snap front.

ORDERING DATA:

- b Economy Labcoat**
Large Catalog No.: **750820**
Extra Large Catalog No.: **750821**

c. ECONOMY COVERALL
PERFORMANCE HIGHLIGHTS:

- As with the Economy Labcoat, this coverall is made from material similar to the medium barrier coverall. However, the construction and features are not similar – for example, there is no flap over the zipper.

ORDERING DATA:

- c. Economy Coverall**
Small Catalog No.: **750808**
Medium Catalog No.: **750809**
Large Catalog No.: **750810**
Extra Large Catalog No.: **750811**

d. COATED FRONT GOWN
PERFORMANCE HIGHLIGHTS:

- Excellent quality construction at a reasonable price.
- Very popular in our field.
- Affords the user medium barrier protection on the front of the gown, while the back is constructed of comfortable, breathable material.
- Velcro neck and solid seams.
- Comes in only one size – extra large.

ORDERING DATA:

- d. Coated Front Gown**
Extra Large Catalog No.: **750825**

e. SHOE COVERS
PERFORMANCE HIGHLIGHTS:

- Made of plastic material.
- Elasticized ankles, generously cut, fits all shoe sizes.
- Shoe covers and boot covers are also available in coated material – these have non-skid soles.

ORDERING DATA:

- e. Shoe Covers (Each pair)**
Catalog No.: **750831**
