

FREIGHT POLICY

The Dodge Company's freight policy changed as of *October 1, 2011*.

The freight policy will be based on dollars spent on specific, eligible products, per order (continental U.S. only).

- ⇒ If **\$200** of eligible product is purchased, a **freight deduction of 25% will be allowed**, if paid within terms (1%-15, Net 30).
- ⇒ If **\$400** of eligible product is purchased, a **freight deduction of 50% will be allowed**, if paid within terms (1%-15, Net 30).

The following products are eligible for the deductions stated above:

- ⇒ All 24-bottle cases of chemical
- ⇒ All 6-bottle cases of chemical
- ⇒ All 16oz. bottles of chemicals & dyes
- ⇒ Freedom Art - 4 bottle cases
- ⇒ Feature Builder - 13oz. bottles
- ⇒ 25lb. pails of: Action, Dodgesorb and Q-S Sealer
- ⇒ 6.5 gallon pails & 30 gallon drums of: Hardening Compound, Viscerock and Viscerock FF
- ⇒ All Dodge stocked adult and sharing urns

On the following products, UPS/Fed-Ex charges a "hazardous material" fee, currently \$32.00, in addition to regular shipping charges. This added cost can be avoided if the order includes enough chemical to be shipped by a freight carrier (instead of UPS/Fed-Ex Ground).

- ⇒ Action - 25lb. Pail
- ⇒ Dis Spray - Gallon

Applies to ground shipments only, within the 48 contiguous states.

NOTE: UPS/Fed-Ex will not accept **Basic Dryene** due to its Phenol content.

All orders containing **Basic Dryene** will automatically be shipped via freight carrier.
